SAVE THE DATE: OPPORTUNITY TO SHARE YOUR VIEWS ON THE FUTURE AGENDA OF THE EUROPEAN LAB

 EFRAG OFFICES - 35 Square de Meeûs - 1000 Brussels

ROUND TABLE EVENT 10 SEPTEMBER 12:30 TO 14:30 HRS, EFRAG OFFICES BRUSSELS OR BY WEBCAST

The European Corporate Reporting Lab @EFRAG (European Lab) has been tasked with stimulating innovation in the field of corporate reporting in Europe by identifying and sharing good reporting practices. The European Lab launched its first project early this year on climate-related reporting and we are aiming to publish the results by the end of the year.

To get stakeholders input on its future work, EFRAG will be hosting a two-hour event on **Tuesday 10 September**, starting at **12:30 hrs**. A light lunch will be served before the event. This will be an opportunity for stakeholders to provide input and exchange views on the European Lab future agenda consultation that was published in July and is open for responses until 30 September. We hope to learn what stakeholders consider to be corporate reporting priorities and how these priorities could be addressed by the European Lab.

Speakers during the event will include EFRAG Board President and European Lab Steering Group Chairman Jean-Paul Gauzes, Alain Deckers from the European Commission and several European Lab Steering Group members.

HOW YOU CAN PARTICIPATE

Stakeholders are invited to participate by attending the event at the EFRAG office in Brussels or they can participate remotely via webcast.

Prior registration is required **by Friday 6 September**. The language of the event will be English.

Please register for our event by responding to Cristina Rodriguez at cristina.rodriquez@efrag.org indicating if you wish to participate in person or by webcast.
