Public webinar

EFRAG and the IASB invite you to a webinar on selected issues of the **IASB Discussion Paper Business Combinations—Disclosures, Goodwill and Impairment**.

The issues selected are:

Better disclosures about acquisitions

- Can companies, at a reasonable cost, provide investors with more useful information about their acquisitions?
- How can the transparency of the success or failure of an acquisition be improved?
- What is a practical way to proceed, considering confidentiality?
- Should the information be placed in the management commentary rather than the financial statements?

Making the impairment test more effective

- Addressing the 'too little, too late' issue: is it possible to make the existing impairment test more effective?
- Would improving the guidance on goodwill allocation and reallocation to cash-generating units (CGUs) help to address shielding?
- Is there a role for disclosure to mitigate the risk of management over-optimism, such as actual versus forecast cash flows and other key inputs of the model?

Possible changes to the goodwill accounting

- Should goodwill only be tested for impairment when there is an indication of impairment?
- Is there new evidence or arguments that amortisation of goodwill should be reintroduced?

After a short presentation of the selected topics from the DP by the IASB, EFRAG will provide its preliminary views on the DP and open questions to constituents. This will be followed by an open panel debate that will cover perspectives from a preparer, user, auditor, enforcer, valuer and an academic. The audience can participate through polling questions and by asking questions to the IASB, EFRAG or panellists. The moderator of the debate and Q&A session will be *Olivier Schérer*, EFRAG TEG member, Partner PwC France and Chair of the Accounting Working Party of Accountancy Europe.

The high-level panellists are as follows:

- Robert Braun, German Financial Reporting Enforcement Panel (FREP)
- Emanuele Flappini, Head of Financial Reporting at Mediobanca SpA
- Javier Hombria, Account Manager at Morrow Sodali, observer EFRAG Advisory Panel on Intangibles
