

This paper has been prepared by the EFRAG Secretariat for discussion at a public meeting of EFRAG TEG. The paper forms part of an early stage of the development of a potential EFRAG position. Consequently, the paper does not represent the official views of EFRAG or any individual member of the EFRAG Board or EFRAG TEG. The paper is made available to enable the public to follow the discussions in the meeting. Tentative decisions are made in public and reported in the EFRAG Update. EFRAG positions, as approved by the EFRAG Board, are published as comment letters, discussion or position papers, or in any other form considered appropriate in the circumstances.

## **EFRAG's Draft Letter to the European Commission Regarding Endorsement of the *Interest Rate Benchmark Reform* (Amendments to IFRS 9, IAS 39 and IFRS 7)**

Olivier Guersent  
Director General, Financial Stability, Financial Services and Capital Markets Union  
European Commission  
1049 Brussels

[dd Month] 2019

Dear Mr Guersent,

### **Endorsement of the *Interest Rate Benchmark Reform (Amendments to IFRS 9, IAS 39 and IFRS 7)***

Based on the requirements of the Regulation (EC) No 1606/2002 of the European Parliament and of the Council on the application of international accounting standards, EFRAG is pleased to provide its opinion on the *Interest Rate Benchmark Reform (Amendments to IFRS 9, IAS 39 and IFRS 7)* ('the Amendments') was issued by the IASB on XX September 2019. An Exposure Draft ED/2019/1 *Interest Rate Benchmark Reform (IBOR)* was issued on 3 May 2019. EFRAG provided its comment letter on that Exposure Draft on 20 June 2019.

The objective of the Amendments is to avoid the discontinuation of hedging relationships as a result of uncertainties related to the IBOR transition, in particular due to the inability to meet specific forward-looking hedge accounting requirements in the periods before the transition.

The Amendments shall be applied retrospectively for annual periods beginning on or after 1 January 2020, with earlier application permitted. A description is included in Appendix 1 to this letter.

In order to provide our endorsement advice as you have requested, we have first assessed whether the Amendments would meet the technical criteria for endorsement, in other words whether the Amendments would provide relevant, reliable, comparable and understandable information required to support economic decisions and the assessment of stewardship, lead to prudent accounting and is not contrary to the true and fair view principle. We have then assessed whether the Amendments would be conducive to the European public good. We provide our conclusions below. We also have assessed whether entities should be allowed to early adopt the Amendments in accordance with the IASB's transition arrangements.

### **Do the Amendments meet the IAS Regulation technical endorsement criteria?**

EFRAG has concluded that the Amendments meet the qualitative characteristics of relevance, reliability, comparability and understandability required to support economic

decisions and the assessment of stewardship, and raise no issues regarding prudent accounting. EFRAG has also assessed that the Amendments do not create any distortion in their interaction with other IFRS Standards and that all necessary disclosures are required. Therefore, EFRAG has concluded that the Amendments are not contrary to the true and fair view principle. EFRAG's reasoning is explained in Appendix 2 to this letter.

**Are the Amendments conducive to the European public good?**

EFRAG has assessed that the Amendments would improve financial reporting and would reach an acceptable cost-benefit trade-off. EFRAG has not identified that the Amendments could have any adverse effect on the European economy, including financial stability and economic growth. Accordingly, EFRAG assesses that endorsing the Amendments is conducive to the European public good. EFRAG's reasoning is explained in Appendix 3 to this letter.

**Our advice to the European Commission**

On the basis of the conclusions illustrated above, we recommend the Amendments for endorsement without further delay.

On behalf of EFRAG, I would be happy to discuss our advice with you, other officials of the European Commission or the Accounting Regulatory Committee as you may wish.

Yours sincerely,

Jean-Paul Gauzès  
**President of the EFRAG Board**

## Appendix 1: Understanding the changes brought about by the Amendments

### Background of the Amendments

- 1 Recent market developments have brought into question the long-term viability of some interbank offered rates (IBORs). IBORs (EURIBOR, LIBOR, etc.) are reference interest rates which are used as benchmarks for a broad range of financial products and contracts. In this context, the G20 asked the Financial Stability Board (FSB) to undertake a fundamental review of major interest benchmarks and develop plans for reform to ensure that these benchmarks are robust and appropriately used by market participants. The FSB set out its recommendations for reforming major interest rate benchmarks in its July 2014 report.<sup>1</sup>
- 2 In response, the European Benchmark Regulation (BMR) was issued in June 2016 and starting from 1 January 2022, only benchmarks that are compliant with the BMR may be used in the EU.
- 3 In analysing the accounting impacts from the benchmark reform, the IASB has identified two types of implications:
  - (a) Issues affecting financial reporting in the periods before replacement of an existing interest rate benchmark with an alternative interest rate (pre-replacement issues); and
  - (b) Issues affecting financial reporting when an existing interest rate benchmark is replaced with an alternative interest rate (replacement issues).
- 4 The Amendments only focus the issues that affect financial reporting before replacement of an existing interest rate benchmark (pre-replacement issues). The replacement issues will be dealt with in a second phase.

### The issue and how it has been addressed

- 5 The pre-replacement issues identified relate to the hedge accounting requirements in IFRS 9 *Financial Instruments* and IAS 39 *Financial Instruments: Recognition and Measurement* which require forward-looking analysis. As a result of the benchmark reform, contractual cash flows of hedged items and hedging instruments that are based on an existing interest rate benchmark will likely change when this benchmark is replaced with an alternative interest rate. Therefore, until regulators have made decisions about what the alternative benchmark rate is and when and how the reform will occur, the exact transition pattern remains unknown and uncertainties will exist regarding the timing and the amount of future cash flows of the hedged items and the hedging instruments.
- 6 In some cases, solely due to those uncertainties, entities could be required to discontinue hedge accounting for hedging relationships that would otherwise qualify for hedge accounting. Discontinuation of hedge accounting would require an entity to recognise gains or losses in profit or loss. Also, the current requirements in IFRS Standards may prevent entities from designating new hedging relationships that would otherwise qualify for hedge accounting.
- 7 In the IASB's view, discontinuation of hedge accounting solely due to such uncertainties before the reform's economic effects are known would not provide useful information to users of financial statements. Therefore, the IASB decided to propose exceptions to specific hedge accounting requirements in IFRS 9 and IAS 39

---

<sup>1</sup> The FSB report 'Reforming Major Interest Rate Benchmarks' can be found [here](#).

to provide relief during this period of uncertainty. The proposed reliefs will allow entities to continue hedge accounting relationships.

### **What has changed?**

- 8 The Amendments provide exceptions so that entities would apply hedge accounting requirements assuming that the interest rate benchmark on which the hedged risk or hedged cash flows of the hedged item or cash flows of the hedging instrument are based is not altered as a result of the IBOR reform. The proposed exceptions apply only to the hedge accounting requirements and the Amendments do not provide relief from any other consequences arising from interest rate benchmark reform.
- 9 To avoid the discontinuation of the hedge accounting due to the reform the Amendments:
  - (a) Provide relief from the uncertainties arising from IBOR for the highly probable requirement and effectiveness assessments required by IFRS 9 and IAS 39;
  - (b) Allow the hedged risk component or risk portion only be separately identifiable at inception of the hedging relationship for the hedges of benchmark component of interest rate risk.
- 10 The Amendments are limited in scope. If a hedging relationship no longer meets the requirements for hedge accounting for reasons *other than* those specified by the Amendments, then discontinuation of hedge accounting is still required.
- 11 To inform users about of the impacts of the reform, IFRS 7 was amended to require additional disclosure about the effects of the reform. These disclosures provide qualitative information about hedging relationships directly affected by interest rate benchmark reform, entity risk exposure and risk management strategy. In addition, the Amendments require a disclosure of the nominal amount of the hedging instruments in hedging relationships for which the entity is applying the exceptions.
- 12 The Amendments also provide exceptions from the presentation of the quantitative comparative information required by paragraph 28(f) of IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors*.
- 13 The Amendments are mandatory to all hedging relationships to which the exceptions are applicable and cease at the earlier of:
  - (a) when the uncertainty arising from interest rate benchmark reform is no longer present with respect to the timing and the amount of the interest rate benchmark-based cash flows of the hedged item; and
  - (b) when the hedging relationship that the hedged item is part of is discontinued.

### **When do the Amendments become effective?**

- 14 The amendments have an effective date of annual periods beginning on or after 1 January 2020. Earlier application is permitted. The amendments would be applied retrospectively. No specific transition provisions are proposed.

## Appendix 2: EFRAG's technical assessment on the Amendments against the endorsement criteria

### Notes to Constituents:

This appendix sets out the basis for the conclusions reached, and for the recommendation made, by EFRAG on the Amendments. In it, EFRAG assesses how the Amendments satisfy the technical criteria set out in the Regulation (EC) No 1606/2002 for the adoption of international accounting standards. It provides a detailed evaluation for the criteria of relevance, reliability, comparability and understandability, so that financial information is appropriate for economic decisions and the assessment of stewardship. It evaluates separately whether the Amendments lead to prudent accounting and finally considers whether the Amendments would not be contrary to the true and fair view principle.

In its comment letters to the IASB, EFRAG points out that such letters are submitted in EFRAG's capacity of contributing to the IASB's due process. They do not necessarily indicate the conclusions that would be reached by EFRAG in its capacity of advising the European Commission on endorsement of the definitive IFRS Standards in the European Union and European Economic Area.

In the latter capacity, EFRAG's role is to make a recommendation about endorsement based on its assessment of the final IFRS Standard or Interpretation against the technical criteria for European endorsement, as currently defined. These are explicit criteria which have been designed specifically for application in the endorsement process, and therefore the conclusions reached on endorsement may be different from those arrived at by EFRAG in developing its comments on proposed IFRS Standards or Interpretations. Another reason for a difference is that EFRAG's thinking may evolve.

### Does the accounting that results from the application of the Amendments meet the technical criteria for endorsement in the European Union?

- 1 EFRAG has considered whether the Amendments meet the technical requirements of the European Parliament and of the Council on the application of international accounting standards, as set out in Regulation (EC) No 1606/2002 (The IAS Regulation), in other words that the Amendments:
  - (a) are not contrary to the principle set out in Article 4 (3) of Council Directive 2013/34/EU (The Accounting Directive); and
  - (b) meet the criteria of understandability, relevance, reliability, and comparability required of the financial information needed for making economic decisions and assessing the stewardship of management.
- 2 Article 4(3) of the Accounting Directive provides that:

*The annual financial statements shall give a true and fair view of the undertaking's assets, liabilities, financial position and profit or loss. Where the application of this Directive would not be sufficient to give a true and fair view of the undertaking's assets, liabilities, financial position and profit or loss, such additional information as is necessary to comply with that requirement shall be given in the notes to the financial statements.*
- 3 The IAS Regulation further clarifies that *'to adopt an international accounting standard for application in the Community, it is necessary firstly that it meets the basic requirement of the aforementioned Council Directives, that is to say that its application results in a true and fair view of the financial position and performance of an enterprise - this principle being considered in the light of the said Council Directives without implying a strict conformity with each and every provision of this Directive'* (Recital 9 of the IAS Regulation).

- 4 EFRAG's assessment as to whether the Amendments would not be contrary to the true and fair view principle has been performed against the European legal background summarised above.
- 5 In its assessment, EFRAG has considered the Amendments from the perspectives of both usefulness for decision-making and assessing the stewardship of management. EFRAG has concluded that the information resulting from the application of the Amendments is appropriate both for making decisions and assessing the stewardship of management.

#### **Relevance**

- 6 Information is relevant when it influences the economic decisions of users by helping them evaluate past, present or future events or by confirming or correcting their past evaluations. Information is also relevant when it assists in evaluating the stewardship of management.
- 7 EFRAG considered whether the Amendments would result in the provision of relevant information – in other words, information that has predictive value, confirmatory value or both – or whether it would result in the omission of relevant information.
- 8 In assessing the relevance EFRAG has considered:
  - (a) Reliefs provided by the Amendments;
  - (b) Disclosure requirements;
  - (c) Effective date of the Amendments; and
  - (d) Reinstatement of previously discontinued hedging relationships.

#### *Reliefs provided by the Amendments*

- 9 The IBOR reform is initiated by the G20 and driven by regulators with the aim to provide the financial markets with more reliable interest rate benchmarks. In the transition phase uncertainties exist that can affect the ability of entities to either continue existing or initiate new hedge accounting transactions. This may result in discontinuation of some hedge accounting as a result of not meeting the forward-looking requirements of IFRS 9 and IAS 39. Such discontinuations affect profit or loss simply because of the uncertainties created by the IBOR reform, are misleading and not relevant for users.
- 10 To avoid this, the Amendments provide the exceptions from:
  - (a) Highly probable requirement;
  - (b) Assessment of the economic relationship between the hedged item and the hedging instrument (IFRS 9) and Effectiveness assessment (IAS 39); and
  - (c) Hedges of risk components and portions.

#### *Highly probable requirement*

- 11 Currently, the highly probable requirement under IFRS 9 and IAS 39 requires that changes in fair value of designated hedging instruments are recorded in the cash flow hedge reserve in other comprehensive income only for those hedged forecast transactions for which there is a high probability of occurrence. The uncertainty resulting from the interest rate benchmark reform is such that the hedged cash flows are no longer considered to be highly probable, and in the absence of any corrective measures, the hedge accounting should be discontinued.
- 12 The Amendments provide an exception to the highly probable requirement. More specifically, if the hedged future cash flows are based on an existing interest rate benchmark that would be altered by the reform, an entity would assume that the interest rate benchmark on which hedged cash flows are based will not be altered when assessing whether the future cash flows are highly probable.

- 13 EFRAG considers that discontinuation of hedging relationships solely due to the uncertainties regarding the timing and the amount of cash flows arising from the reform of interest rate benchmarks will not provide useful and relevant information to the users of financial statements and therefore supports the relief from the highly probable requirement.

*Assessment of the economic relationship between the hedged item and the hedging instrument (IFRS 9) and Effectiveness assessment (IAS 39)*

- 14 Currently, IFRS 9 and IAS 39 require entities to discontinue hedge accounting if the prospective assessments (the existence of an economic relationship for IFRS 9 and whether the hedge is expected to be highly effective) are not met. Once hedge accounting is discontinued, the entity is required to recognise in profit or loss the changes in the fair value of the derivatives (i.e. the hedging instruments before discontinuation), in the same way as trading derivatives.
- 15 The Amendments also provide an exception for discontinued hedging relationships, applying which any amount remaining in the cash flow hedge reserve would be reclassified to profit or loss in the same period(s) during which the hedged cash flows affect profit or loss, assuming that the interest rate benchmark on which the hedged cash flows are based is not altered as a result of the reform. If, however, the hedged future cash flows are no longer expected to occur for other reasons, the entity shall immediately reclassify to profit or loss any amount remaining in the cash flow hedge reserve.
- 16 The Amendments override existing requirements of IFRS 9 and IAS 39 to allow entities to continue assessing hedging relationship as if the reform did not take place. EFRAG considers that given the temporary and regulatory driven nature of the reform, the discontinuation of existing hedging relationships would not result in relevant information (i.e. information about the outcome and performance of an entity's risk mitigation strategy) and would not reflect the economics underlining the hedge accounting relationships.
- 17 Therefore, EFRAG supports the reliefs from the assessment of the economic relationship between the hedged item and the hedging instrument (IFRS 9) and effectiveness assessment (IAS 39) as they will result in a more relevant information provided to the users in the period of uncertainty.

*Hedges of risk components and portions*

- 18 According to IFRS 9 and IAS 39, an entity may designate an item in its entirety or a component of an item as the hedged item in a hedging relationship. Both standards require that the risk component be separately identifiable and reliably measurable in order to be eligible for hedge accounting.
- 19 IBOR reform could affect an entity's assessment of whether a non-contractually specified IBOR component is separately identifiable and therefore can be an eligible hedged item in a hedging relationship.
- 20 The Amendments aim to ensure that entities do not discontinue hedge accounting solely because the hedged item is no longer separately identifiable as the reform progresses. The separate identification requirement for hedges of the benchmark component of interest rate risk is only applied at the inception of those hedging relationships affected by the reform.
- 21 The Amendments provide a similar exception for hedging relationships that are frequently reset.
- 22 In EFRAG's view, until uncertainty regarding the timing and amount of future cash flows of the hedged items and the hedging instruments ceases to exist, sufficient information is not available to make informed decisions. Volatility created in the financial reporting as a result of these uncertainties would not provide useful

information. Therefore, EFRAG supports the proposed exception as providing relevant information.

*Reinstatement of previously discontinued hedging relationships*

- 23 The Amendments do not allow the reinstatement of hedge accounting that had previously been discontinued because entities were unable to apply the proposed reliefs. EFRAG is aware that not allowing reinstatement of such hedges may theoretically leave room for structuring opportunities. For example, entities would not be allowed to reinstate in their 2020 financial statements any hedge accounting had been discontinued in their 2019 financial statements, as a result of the unavailability of the relief. Considering the speed that the IASB project has taken, it is likely that the Amendments will be available for use in Europe for the 2019 financial statements reporting expecting that the Endorsement is completed before the date of issuance of 2019 reporting, EFRAG considers that such risk is appropriately mitigated.
- 24 Accordingly, EFRAG considers that not allowing for reinstatement of discontinued hedging relationships is not negatively affecting the qualitative characteristics of the resulting information.

*Disclosure requirements*

- 25 The Amendments propose additional disclosure requirements about the effect of the uncertainty arising from IBOR. These requirements generally require qualitative information about the extent to which the entity is affected by the reform, risk exposure and risk management strategy.
- 26 EFRAG is of the view that qualitative disclosures of the impacts of the reform, the uncertainty it creates and the extent of use of the reliefs proposed by the Amendments provide relevant information to users and therefore supports the disclosure requirements. EFRAG also relies on the general disclosure requirements in IAS 1 *Presentation of Financial Statements* that mandate the provision of additional information where necessary.
- 27 In addition, the Amendments require a disclosure of the nominal amount of the hedging instruments in hedging relationships for which the entity is applying the exceptions.
- 28 In addition, the Amendments provide exceptions from the presentation of the quantitative information required by paragraph 28(f) of IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* which requires an entity, on the initial application of an accounting policy, to disclose, for the current period and each prior period presented, the amount of any adjustment for each financial statement line item affected.
- 29 EFRAG considers that the above IAS 8 requirement would not provide useful information to users of financial statements and would be unduly onerous for preparers.

*Effective date of the Amendments*

- 30 As IBOR is progressing at a different speed within different jurisdictions, it is important to provide level playing field for all the entities. To achieve this, entities need to be able to use the Amendments as soon as possible without having to discontinue their current hedge accounting before the initial application. Hence it is important that the effective date of 1 January 2020 with an earlier application permitted is applied.
- 31 Therefore, considering the publication date of the Amendments XX September 2019, EFRAG assesses that the effective date proposed in the Amendments with an earlier application permitted results in information relevant to the users of financial statements.

### *Conclusion*

- 32 EFRAG's overall assessment is that the requirements in the Amendments will on balance result in relevant information.

### **Reliability**

- 33 EFRAG also considered the reliability of the information that will be provided by applying the Amendments. Information has the quality of reliability when it is free from material error and bias and can be depended upon by users to represent faithfully what it either purports to represent, or could reasonably be expected to represent, and is complete within the bounds of materiality and cost.
- 34 There are a number of aspects to the notion of reliability: freedom from material error and bias, faithful representation, and completeness.
- 35 In assessing the reliability EFRAG has considered:
- (a) Overall aim of the Amendments; and
  - (b) Mandatory application and end of application.

### *Overall aim of the Amendments*

- 36 The overall aim of IBOR reform is to provide financial markets with new more reliable and almost risk-free interest rates. The reform is driven by the regulators and is obligatory for all the market participants.
- 37 The uncertainty of the IBOR transition may oblige entities to discontinue hedge accounting relationships solely as an unintended consequence of uncertainty temporarily existing in the pre-replacement period. The Amendments provide the reliefs (described in paragraphs 9 to 22 of this document) which would allow entities to continue hedge accounting as if the current benchmark interest rates would continue to exist.
- 38 EFRAG is of the view that providing a short-term and limited relief in these specific circumstances that are the result of regulatory changes does not significantly hinder reliability. The IBOR reform is a well-publicised issue and the limited timing of the reliefs means that the normal requirements of IFRS 9 will only be suspended for a relatively short time.

### *Mandatory application and end of application*

- 39 The application of the Amendments is mandatory for all hedging relationships affected by interest rate benchmark reform. EFRAG considers that the mandatory application avoids earnings management and therefore results in a more reliable information.
- 40 The Amendments cease to apply at the earlier of:
- (a) When the uncertainty arising from interest rate benchmark reform is no longer present with reference to both the hedging instrument and the hedged item; or
  - (b) When the hedging relationship is discontinued.
- 41 EFRAG agrees with the temporary nature of the relief as it is in line with the overall aim of the Amendments and will result in a reliable information provided during the IBOR transition period.

### *Conclusion*

- 42 EFRAG's overall assessment is that the Amendments would result in the provision of sufficiently reliable information and therefore satisfy the reliability criterion.

## **Comparability**

- 43 The notion of comparability requires that like items and events are accounted for in a consistent way through time and by different entities, and that unlike items and events should be accounted for differently.
- 44 EFRAG has considered whether the Amendments result in transactions that are:
- (a) economically similar being accounted for differently; or
  - (b) transactions that are economically different being accounted for as if they are similar.
- 45 In assessing comparability, EFRAG has considered:
- (a) Continuation of existing hedging relationships; and
  - (b) Mandatory application and the end of application.

### *Continuation of existing hedging relationships*

- 46 EFRAG notes that, in absence of the Amendments, existing hedge accounting relationships may be discontinued or designation of new hedge accounting relationships may be prevented because of the uncertainty related to the interest rate benchmark reform. The Amendments allow the continuation of existing hedging relationships and therefore ensure that comparable information about hedging results (and its effectiveness) is provided between prior periods and future periods, thus eliminating the disturbing effects created by the temporary uncertainty about the impact of IBOR reform on the cash flows of the hedged item and of the hedging instrument.

### *Mandatory application and end of the application*

- 47 As the application of the Amendments is mandatory, it results in continuation of hedge accounting for hedges that are not and for hedges that are affected by the IBOR reform. This includes, for example, different timing of the IBOR transition in different jurisdictions or different legs of the hedging relationship transitioning at the different time. However, in EFRAG's view, the possible reduced ability to differentiate between the two different types of hedges is mitigated by the short-term nature of the reform and the additional disclosures required by the Amendments.
- 48 The mandatory application also removes the possibility to apply the Amendments selectively and avoids any potential for earnings management.
- 49 EFRAG notes that application of the Amendments is limited in time. By stating end date on the applicability of the Amendments, comparability is indeed enhanced, as once the uncertainty is no longer present all entities will stop applying the Amendments.

### *Reinstatement of previously discontinued hedging relationships*

- 50 Please refer to paragraph 23 for EFRAG conclusions.

### *Conclusion*

- 51 EFRAG's overall assessment is that the requirements in the Amendments will result in sufficiently comparable information.

## **Understandability**

- 52 The notion of understandability requires that the financial information provided should be readily understandable by users with a reasonable knowledge of business and economic activity and accounting, and the willingness to study the information with reasonable diligence.

- 53 Although there are a number of aspects related to the notion of 'understandability', EFRAG believes that most of the aspects are covered by the discussion above about relevance, reliability and comparability.
- 54 In assessing understandability, EFRAG has looked at the temporary exceptions from applying specific hedge accounting requirements which cover the following specific subtopics:
- (a) Highly probable requirement;
  - (b) Assessment of the economic relationship between the hedged item and the hedging instrument (IFRS 9) and Effectiveness assessment (IAS 39);
  - (c) Designating a component of an item as the hedged items; and
  - (d) Disclosure requirements.

*Temporary exceptions from applying specific hedge accounting requirements*

- 55 EFRAG notes that each of the above subtopics has been assessed against relevance or reliability in the paragraphs above. As a consequence, the assessment on understandability will focus on the temporary exceptions as a whole, not on each of the subtopics.
- 56 EFRAG assesses that without application of the temporary exceptions, entities may encounter impacts in the statement of comprehensive income as a result of failing hedge accounting relationships. In case these failures are solely due to the uncertainties brought by IBOR, EFRAG is of the view that these effects do not result in understandable information for users as this is a form of short-term accounting mismatch. Hence, applying the temporary exceptions will restore the understandability of the information resulting from hedge accounting relationships.

*Disclosure requirements*

- 57 Despite the uncertainty surrounding the impact the reform will have on cash flows, the Amendments ensure that the financial statements do not change as a result of this uncertainty. This could be difficult to understand for users who would like to be informed about the potential or actual impacts of the IBOR reform on a particular entity. EFRAG considers that additional qualitative disclosure requirements proposed by the Amendments would help users to gain necessary understanding about the impacts of the reform, risks associated with it and risk management strategy put in place, thus improving understandability.

*Conclusion*

- 58 EFRAG's overall assessment is that the Amendments satisfy the understandability criterion in all material respects.

**Prudence**

- 59 For the purpose of this endorsement advice, prudence is defined as caution in conditions of uncertainty. In some circumstances, prudence requires asymmetry in recognition such that assets or income are not overstated and liabilities or expenses are not understated.
- 60 EFRAG acknowledges that the Amendments do affect prudence, as they allow entities to continue existing hedging accounting relationships which would otherwise be discontinued due to the uncertainty created by IBOR reform. As observed above, until uncertainty regarding the timing and amount of future cash flows of the hedged items and the hedging instruments ceases to exist, sufficient information is not available to make informed decisions. In addition, the Amendments have short-term impact and respond to unintended consequences created by a reform that is of regulatory nature and, as such, closely monitored by regulators. Therefore, EFRAG

considers that the proposed exceptions are do not have an adverse impact on prudence.

### **True and Fair View Principle**

- 61 A Standard will not impede information from meeting the true and fair view principle when, on a stand-alone basis and in conjunction with other IFRS Standards, it:
- (a) does not lead to unavoidable distortions or significant omissions in the representation of that entity's assets, liabilities, financial position and profit or loss; and
  - (b) includes all disclosures that are necessary to provide a complete and reliable depiction of an entity's assets, liabilities, financial position and profit or loss.
- 62 The Amendments affect three IFRS Standards: IFRS 9, IAS 39 and IFRS 7 and do not create any negative interactions with other IFRS Standards. In EFRAG's opinion, any reduction in reliability and understandability is mitigated by the increased relevance of avoiding the short-term impact on profit or loss of unintended discontinuing of hedge accounting caused by temporary uncertainty about the impact of this regulatory reform on cash flows of the hedges.
- 63 Accordingly, EFRAG has assessed that the Amendments do not lead to unavoidable distortions or significant omissions as they aim to provide continuity of existing accounting and therefore do not impede financial statements from providing a true and fair view.
- 64 EFRAG has concluded that the Amendments require appropriate disclosures about the impacts of the reform which would provide useful information for users and would not incur undue costs to preparers.
- 65 As a result, EFRAG concludes that the application of the Amendments would not lead to information that would be contrary to the true and fair view principle.

### **Conclusion**

- 66 Accordingly, for the reasons set out above, EFRAG's assessment is that the Amendments meet the technical requirements for EU endorsement as set out in the IAS Regulation.

## **Appendix 3: Assessing whether the Amendments are conducive to the European public good**

### **Introduction**

- 1 EFRAG considered whether it would be conducive to the European public good to endorse the Amendments. In addition to its assessment included in Appendix 2, EFRAG has considered potential negative effects for the European economy on the application of the Amendments. In doing this, EFRAG considered:
  - (a) Whether the Amendments improve financial reporting. This requires a comparison of the Amendments with the existing requirements and how it/they fit into IFRS Standards as a whole;
  - (b) The costs and benefits associated with the Amendments; and
  - (c) Whether the Amendments could have an adverse effect to the European economy, including financial stability and economic growth.
- 2 These assessments allow EFRAG to draw a conclusion as to whether the Amendments are likely to be conducive to the European public good. If the assessment concludes there is a net benefit, the Amendments will be conducive to the objectives of the IAS Regulation.

### **EFRAG's evaluation of whether the Amendments are likely to improve the quality of financial reporting**

- 3 EFRAG notes that the Amendments are designed to ensure continuity of existing hedge accounting relationships and therefore provide short-term exceptions from the IAS 39 and IFRS 9 hedge accounting requirements during the periods of uncertainty caused by IBOR. The Amendments will allow entities to apply hedge accounting requirements of IAS 39 and IFRS 9 assuming the interest rate benchmark on which the hedged cash flows and cash flows of the hedging instruments are based is not altered as a result of the reform.
- 4 Without application of these temporary exceptions, entities may encounter volatility in profit or loss a result of failing hedge accounting relationships or the inability to designate new hedge accounting relationships. In case these failures are solely due to the uncertainties caused by the reform, EFRAG is of the view these effects do not result in useful information. Applying the Amendments will address these inadequacies.
- 5 EFRAG has therefore concluded that the Amendments are likely to improve the quality of financial reporting.

### **EFRAG's initial analysis of the costs and benefits of the Amendments**

- 6 EFRAG first considered the extent of the work. For some Standards or Interpretations, it might be necessary to carry out some extensive work, in order to fully understand the cost and benefit implications of the Standard or Interpretation being assessed. However, in the case of the Amendments, EFRAG's view is that the cost and benefit implications can be assessed by carrying out a more modest amount of work.

#### *Costs for preparers*

- 7 EFRAG has carried out an assessment of the cost implications for preparers resulting from the Amendments.
- 8 EFRAG acknowledges that the IBOR reform itself creates costs for preparers as they need to reset a very large number of hedging relationships. However, EFRAG is of

the view that the costs of the Amendments do not bring significant costs as they are designed to ensure the continuity of existing hedge accounting.

- 9 With regard to the disclosure requirements, EFRAG notes that some of them such as disclosure of nominal amounts of hedges for which an entity is applying the exceptions might be costly for preparers. However, other qualitative disclosures proposed by the Amendments are not expected to generate significant costs for preparers.
- 10 Overall, EFRAG's assessment is that the Amendments will not result in significant undue costs for preparers related to their implementation.

#### *Costs for users*

- 11 EFRAG has carried out an assessment of the cost implications for users resulting from the Amendments.
- 12 EFRAG does not expect significant additional costs for users as the existing hedge accounting requirements will be maintained and the users are already acquainted with the disclosures required by IFRS 7 *Financial Instruments: Disclosures*. The main cost for users would be understanding the scope of hedge accounting relationships affected by the reform.
- 13 Overall, EFRAG's assessment is that implementation of the Amendments will not result in increased costs to users; that is, it is likely to be cost neutral.

#### *Benefits for preparers and users*

- 14 EFRAG has carried out an assessment of the benefits for users and preparers resulting from the Amendments.
- 15 The Amendments address the uncertainty about the long-term viability of some interest rate benchmarks, their replacement with risk-free rates and the financial reporting implications of that change.
- 16 The aim of the Amendments is to ensure the continuity of the existing hedge accounting relationships in a period of uncertainty caused by the reform. EFRAG is of the view that the Amendments improve the financial reporting requirements of IAS 39 and IFRS 9 as they remove accounting effects created by the uncertainties solely caused by the reform and which do not reflect the underlying hedging strategies. Therefore, in EFRAG's view, users will benefit from financial information reflecting the underlying economic substance of these hedging strategies without being affected by the temporary uncertainty created by the interest rate benchmark reform. Also, preparers will benefit from the Amendments which will help avoiding the undue disruption of the hedge accounting which would otherwise be caused by the reform.

#### *Conclusion*

- 17 EFRAG's overall assessment is that the benefits resulting from the Amendments are likely to outweigh costs associated with their implementation.

#### **EFRAG's evaluation of impact on financial stability**

- 18 The derivatives market in Europe amounts to over 660 trillion euros (notional amounts) of which many are used in hedging and associated hedge accounting. The uncertainty during the transition period created by the reform driven by the regulators could adversely impact the quality of the information provided IFRS financial reporting and, as a consequence, financial markets and thus the financial stability. Without the Amendments, entities' reported profit or loss would be impacted significantly, potentially leading to real market impacts.
- 19 The Amendments aim to mitigate unintended volatility in financial reporting during this period of uncertainty and therefore EFRAG supports the Amendments as having

a positive effect on financial stability. EFRAG is aware that if, after the reform is completed, some hedge accounted relationships no longer meet the effectiveness test and other criteria for hedge accounting, financial statements will be impacted to show the effect of this change in benchmark rates.

- 20 The timing of IBOR reform is different for different rates and jurisdictions but the terms of the different transitions, including how and when the old interest rates will cease and be replaced by new rates, are progressively being clarified. As a consequence, entities are starting to arrange the change of their relevant contractual agreements in preparation of the transition. As a result of these market developments, EFRAG has received a clear message from all the interested parties that contributed to EFRAG assessment during the due process, that it is paramount to have the relief provided in the Amendments available as soon as possible. This resulted in adoption of an accelerated timing for the endorsement advice.

### **Conclusion**

- 21 EFRAG believes that the Amendments will generally bring improved financial reporting when compared to the unchanged requirements of IAS 39, IFRS 9 and IFRS 7. As such, their endorsement is conducive to the European public good in that improved financial reporting improves transparency and assists in the assessment of management stewardship.
- 22 EFRAG has not identified any adverse effect to the European economy, including financial stability and economic growth the Amendments could potentially have.
- 23 Furthermore, EFRAG has not identified any other factors that would mean endorsement is not conducive to the public good.
- 24 Having considered all relevant aspects, including the trade-off between the costs and benefits of implementing the Amendments, EFRAG assesses that endorsing the Amendments is conducive to the European public good.
