On 29 April 2022, EFRAG launched a [public consultation](#) on the Exposure Drafts on Draft European Sustainability Reporting Standards. The public consultation is seeking views on the proposed disclosure requirements, including their adequacy, how the way the CSRD principles have been implemented and possible options for phasing-in the implementation.

In this context, EFRAG together with BusinessEurope and EuropeanIssuers is organising a joint outreach event and invite all interested stakeholders to participate. Preparer contributors will provide their views on the proposed disclosure requirements and will further comment from their perspective on the draft ESRS EDs. Panel discussions will focus on cross-cutting standards, environmental reporting standards, and social and governance reporting standards. The audience will be able to interact and raise questions that will be commented by the speakers.

Programme will follow in due course.
