

## SAVE THE DATE

### FUTURE OF IFRS DISCLOSURE REQUIREMENTS: WHAT WE LEARNT FROM THE FIELD TEST WITH EUROPEAN PREPARERS

10 December – 9:00 to 12:00  
(CET)

[Public Webinar](#)

EFRAG, with BusinessEurope and the IFRS Foundation, invites you to a joint outreach event on Friday 10 December 2021, from 9:00 to 12:00 CET to discuss the field test results and consider European stakeholders views on the IASB ED *Disclosure Requirements in IFRS Standards—A Pilot Approach*.

## SAVE THE DATE FOR OUR JOINT OUTREACH EVENT

The IASB ED proposes a new approach to developing disclosure requirements in IFRS Standards and to amend requirements for the Standards on fair value measurement and employee benefits.

These proposals are intended to enable companies to support the application of judgement and reduce 'boilerplate' information, giving investors more useful information.

On Friday 10 December 2021, from 09:00 to 12:00 CET, the joint outreach event will present feedback collected from European preparers participating in the joint IASB/EFRAG field test of the proposals and other European stakeholders including auditors and users.

## EVENT FORMAT

In this public online webinar, eminent speakers from EFRAG, BusinessEurope and the IASB will provide their inputs on the IASB proposals in a discussion moderated by **Claes Norberg**, Chair of BusinessEurope Sounding Board and former EFRAG Board member. Audience participation will be possible through polling questions and Q&A sessions.

The detailed programme will be published shortly.

Please register and watch the webinar [here](#).
