

This paper provides the technical advice from EFRAG TEG to the EFRAG Board, following EFRAG TEG's public discussion. The paper does not represent the official views of EFRAG or any individual member of the EFRAG Board. This paper is made available to enable the public to follow the EFRAG's due process. Tentative decisions are reported in EFRAG Update. EFRAG positions as approved by the EFRAG Board are published as comment letters, discussion or position papers or in any other form considered appropriate in the circumstances.

IFRS 17 – Economic study

Objective

- 1 The objective of the session is for EFRAG TEG to discuss the updated near-final draft of the Economic Study.

Background

- 2 EFRAG commissioned an economic study in 2018 to assist in the endorsement process of IFRS 17. The study covers aspects of the European insurance market such as competition, trends in business model along with product mix and pricing as well as allocation of assets, investor perception, cost of capital and IFRS 17.
- 3 This study has been updated for the recent re-deliberations and tentative decisions of the IASB up to March 2020.
- 4 The report should be taken as final, subject to any fatal flaws being identified by the EFRAG Board and EFRAG TEG.

Question for EFRAG TEG

- 5 Does EFRAG TEG have any serious concerns or comments about the near final updated economic study?

Agenda Papers

- 6 In addition to this cover note, agenda paper 06-04B – *Near final updated report from LE Europe/VVA Consulting* – will be provided for the session.
