The paper forms part of an early stage of the development of a potential EFRAG position. Consequently, the paper does not represent the official views of EFRAG or any individual member of the EFRAG SRB or the EFRAG SR TEG. The paper is made available to enable the public to follow the discussions in the meeting. Tentative decisions are made in public and reported in the EFRAG update. <u>Draft Amended ESRS S1 Own Workforce Exposure Draft UNAPPROVED</u> <u>Working document</u> (ESRS S1 – V1.6)

DRAFTING PROCESS FOR THE WORKING DOCUMENTS SO FAR

The EFRAG SRB and SR TEG provided written comments on the "V.1" versions of the Secretariat working drafts prepared between the end of May and the first week of June. Based on those comments, the EFRAG Secretariat prepared the "V1.5" versions which were discussed in meetings mid-June by both EFRAG SR TEG and SRB.

Subsequently these versions were amended and critically reviewed by dedicated review panels. The review panels submitted the outcome of their work and the remaining points for discussion to the EFRAG SRB and ST TEG.

All agenda papers for the 9/10 July EFRAG SR TEG meeting and 14/16 July SRB meeting ("V.1.6") have been prepared by the Secretariat on the basis of (i) the "V1.5" working documents discussed by the EFRAG SRB and SR TEG, (ii) the review by the respective review panels within the SRB (with SR TEG experts when appropriate) and (iii) the subsequent discussions and decisions in the SRB. Step (i) and (ii) took place in the first week of July.

All comments shared by members in written on the "V1.5" working documents have been considered and incorporated when consistent with the SRB decisions.

DISCLAIMER ON THE STATUS OF THIS UNAPPROVED DOCUMENT

This working document does not represent an EFRAG view at this stage. This "V.1.6" draft is now made public as Working Document for the SR TEG discussions on 9/10 July and the SRB discussions on 14/16 July 2025. They are not to be considered as Exposure Drafts yet. They are unapproved and still subject to change reflecting the discussions in those meetings and for editorial and quality review that has not yet taken place. In addition, they are not accompanied by the necessary explanatory documents that are still being prepared and will accompany the Exposure Draft.

EFRAG recommends stakeholders that intend to contribute to the consultation to plan their review on the Exposure Drafts once they are issued, as they will benefit from the final content and from explanatory content.

REVISED STRUCTURE AND DRAFTING CONVENTIONS

As compared to the ESRS Set 1 (adopted in July 2023), the structure of the standards has been revised and streamlined. In particular:

• All the "shall disclose/shall include/shall report/shall describe/shall explain" have been considered and simplified. They are presented in the main body of the standard. They

have been counted as separate datapoints.

- Below the text of each Disclosure Requirement in topical standards (or section for ESRS
 1), boxed content presents the streamlined corresponding mandatory methodological
 guidance, which is still named "Application Requirements" (AR). This includes "shall
 consider" as element of methodology for preparing the disclosure and "may (present)"
 for presentation options.
- Non mandatory appendices have been maintained in ESRS 1 on an exceptional basis, given their importance (former AR 16).
- All the "may" disclosures have been either eliminated or moved to another category (either deleted or moved to guidance), except for a few of them which are exceptionally still being considered.
- All the non-mandatory content has been moved to separate documents named "Non-Mandatory Illustrative Guidance" (NMIG). While the four points above are drafted to become part of the delegated act, the legal status of the NMIG remains open from an EFRAG's standpoint (either as appendices in the delegated act or as documents issued independently of the delegated act) and will be considered by the EC in due course.

HOW TO READ THIS DOCUMENT

The paragraph numbering has been revised to reflect the draft amendments. Where applicable, the previous Set 1 paragraph numbers are indicated in brackets – for example, '4. (24)' or '4. (24. amended)'.

- When reporting in accordance with ESRS, the sustainability statement shall cover information in relation to ESRS S1 "Own Workforce", when this topic relates to material impacts, risks and opportunities. The disclosure on the material impacts, risks and opportunities is expected to cover policies, actions and targets (if in place), dependencies when relevant, metrics and financial effects.
- 2. The objective of this Standard is to specify disclosure Requirements in relation to these items of information that are not covered in ESRS 2. It is also to enable *users* to understand the extent to which the undertaking aligns or complies with international and European human rights instruments and conventions, including the International Bill of Human Rights, the UN Guiding Principles on Business and Human Rights and the OECD Guidelines for Multinational Enterprises, the International Labour Organization's Declaration on Fundamental Principles and Rights at Work and ILO fundamental conventions, the UN Convention on Persons with Disabilities, the European Convention of Human Rights, the revised European Social Charter, the Charter of Fundamental Rights of the European Union, the EU *policy* priorities as set out by the European Pillar of Social Rights, and Union legislation, including the EU labour law acquis.
- 3. When only one of the *sub-topics* covered by this Standard is material, the undertaking shall report only on that sub-topic. This does not apply to disclosure requirements S1-5, S1-6 and S1-16, which shall be applied whenever an undertaking concludes that *Own Workforce* is material.
- 4. This Standard also requires an explanation of the undertaking's general approach to identifying and managing any *material actual* and *potential impacts*, *risks and opportunities* on its *own workforce* in relation to the following *sub-topics*:
 - (a) working conditions (*adequate wages*, *work-life balance*, working time, secure employment, including *social protection*)
 - (b) collective bargaining, freedom of association and social dialogue
 - (c) health and safety
 - (d) training and skills development;
 - (e) **equal treatment** and diversity (gender equality, equal pay for equal work, employment and inclusion of people with disabilities, non-discrimination, anti-harassment);
 - (f) other labour related human rights (child labour, forced labour, privacy and adequate housing).
- 5. The undertaking shall apply the provisions of ESRS 2 paragraphs from 30 to 33 and GDR- P, GDR-A and GDR-T. In particular:
 - (a) If the undertaking has not adopted *polices*, *actions* or *targets* with regard to a *topic* related to *material impacts*, *risks* and *opportunities* it shall disclose this fact.
 - (b) The undertaking may present the description of its *material impacts, risks* and *opportunities*, in accordance with ESRS 2 IRO 2, alongside information about its *policies*, *actions*, *targets* and metrics through which it addresses them, to avoid duplication and support a coherent narrative.
- 6. In this standard, each Disclosure Requirement is introduced by a disclosure objective, with the exception of *policies*, *actions* and *targets*, for which the provisions in GDR- P, GDR-A and GDR-T provides the necessary framing for the relevant disclosures.
- 7. An undertaking's **own workforce** includes both people who are in an employment relationship with the undertaking ("**employees**") and **non-employees** who are either people with contracts with the undertaking to supply labour ("self-employed people") or people provided by undertakings primarily engaged in "employment activities" (NACE Code N78). Information about non-employees in accordance with this Standard shall not affect their status under applicable labour law. This Standard does not cover workers in the undertaking's upstream or downstream **value chain**. These workers are covered in ESRS S2 **Workers in the value chain**.
- 8. Non-employees that fall within the scope of Own Workforce include:
 - (a) Contractors (self-employed persons) in the undertaking's own workforce. They include:
