

# EFRAG Mapping of Digital Platforms & Initiatives for SME Sustainability Reporting

## KEY TAKEAWAYS 2025

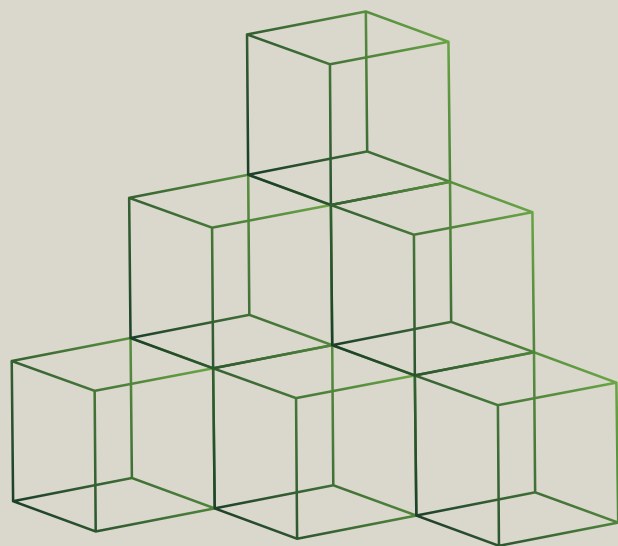

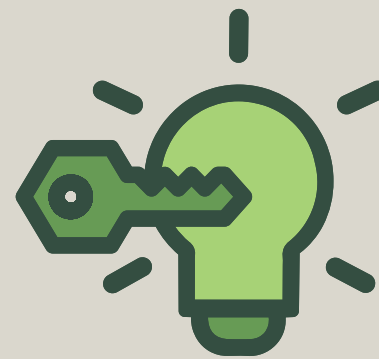

### WHAT WAS MAPPED?

- Existing digital platforms and initiatives that support sustainability reporting for SMEs, either in operational or in design phase, that replied to the Call for Interest in February 2025.

### KEY TAKEAWAYS

- 223 platforms or initiatives were mapped across public, private and mixed sectors.
- Market-driven ecosystem, with 82.06% of platforms developed by private entities.
- The report includes a comparative review of 20 platforms shortlisted and self-assessed platforms, selected based on a series of criteria outlined in the report.
- Non-exhaustive snapshot: based only on those that responded.

### NEXT STEPS:

- More free platforms expected in future as the market continues to develop.
- The implementation and integration of the VSME Standard into existing and upcoming platforms and initiatives is expected to increase.
- A verification mechanism may be needed to ensure consistency and overcome the limitations of the self-assessments.
