

Are you an environmental reporting specialist?

Join EFRAG's Sustainability Reporting Team

Deadline for applications: 15 May 2023

For its sustainability reporting activities EFRAG seeks environmental reporting specialists to enhance EFRAG's sustainability reporting team. We are recruiting for a permanent or seconded Brussels based function with proven environmental knowledge and expertise.

EFRAG has been mandated under the CSRD, technical advisor of the EC in the development of draft European Sustainability Reporting Standards (ESRS)

This is an exciting opportunity to join a multicultural, fast-evolving and collegiate environment and be part of the EFRAG sustainability reporting pillar technical staff. Applications are invited for professionals with over 5 years experience in the field that are EEA nationals and are willing to relocate to and work from EFRAG's Brussels office. Competitive salary packages are on offer depending on successful applicants' qualifications and experience.

Applications, consisting of a letter of motivation and a detailed CV, should be sent to Saskia Slomp, EFRAG CEO, using Rh@efrag.org by 15 May 2023.

Who are we looking for?

EFRAG is looking for individuals with experience in the field of environmental monitoring, environmental accounting or environmental reporting and with a passionate interest in corporate reporting and standard-setting development. We seek candidates with different backgrounds within the natural sciences and with more than 5 years working experience in the field. We are looking for candidates that can contribute their talents and energy to the development of draft ESRS, their implementation and other standard-setting related activities. The ideal candidate should be willing to invest time in developing this expertise further and have an ability to adapt to the fast-evolving sustainability reporting landscape.

We recruit on an equal opportunities and non-discriminatory basis.

Profile

Suitable candidates should have the following profile:

- Knowledge of the sustainability reporting and corporate reporting environments including the interconnectivity between sustainability and financial reporting;

- Proven knowledge of environmental monitoring, accounting or reporting;
- Demonstrated work experience in an environmental field such as climate change, pollution, water resources, marine resources, ecology, biology, waste management or circular economy;
- Knowledge of existing sustainability reporting standards, guidance and framework;
- A degree in engineering, ecology, biology or other natural science related disciplines and a sustainability master is a plus;
- Demonstrated knowledge, practical experience and expertise in the field of preparing, reviewing, researching, or using sustainability reporting information;
- Intellectual curiosity with a willingness to continually deepen subject matter expertise on sustainability topics and corporate reporting;
- Capacity to draft sustainability reporting standards in English and ability to adapt to a rapidly changing sustainability reporting standard setting landscape;
- Strategic thinking, analytical and synthesis skills: the ability to demonstrate conceptual and critical thinking including the articulation of the advantages and disadvantages of a range of standpoints;
- An objective mindset with an ability to listen, engage with and represent the viewpoints of diverse stakeholders;
- Excellent written and verbal communication skills including a high level of proficiency in English and an ability to write clearly and concisely;
- Ability to persuasively present ideas and engage effectively with senior professionals involved in EFRAG's governance bodies;
- Ability to work effectively both in teams and independently, to work effectively with diverse stakeholders, and enhance a collegial atmosphere;
- Effective project management skills including the ability to prioritise, delegate tasks, manage interdependencies, and where needed, meet challenging deadlines;
- Knowledge of the digitisation of corporate reporting is a plus;
- Knowledge of European sustainability-related legislation, regulation and policies is a plus;
- **Nationality of an EEA country required;**
- Committed to serving the European public interest;
- **Relocation to Belgium and work in the EFRAG offices in Brussels required.**

What does EFRAG offer?

EFRAG offers its staff challenging work, and competitive salaries, and presents opportunities for professional growth and the development of corporate reporting expertise while engaging extensively with a broad range of stakeholders. We are looking for both permanent staff and secondments.

EFRAG staff in paid positions have to relocate and work from the EFRAG offices in Brussels (with a number of days of teleworking allowed under the EFRAG teleworking policy).

More information can be found on EFRAG's website www.efrag.org.

Other than environmental reporting specialists

EFRAG has a permanent recruitment process for sustainability reporting and financial reporting functions. Anybody interested in such a function and with appropriate background and expertise in sustainability reporting can send at any time a motivation letter and CV to EFRAG.

In addition, EFRAG is looking for secondments in kind (at least for a 50% basis) to support the sustainability reporting work for a minimum period of 6 months (preferably longer). Secondments in kind can occur from the venue of their seconding organisation.

How to apply?

Applications, consisting of a letter of motivation and a detailed CV, should be sent to Saskia Slomp, EFRAG CEO, using Rh@efrag.org by 15 May 2023.

In applying for this job, you agree that EFRAG processes the data you have provided through your CV, cover letter and any other document. EFRAG will store your CV, cover letter and any other document in its database for one year.

About EFRAG

Since its establishment in 2001, EFRAG has built its reputation as the leading European voice in the global financial reporting debate. EFRAG was established by European stakeholder organisations with an interest in financial reporting, representing the business community, investors and the accountancy profession. EFRAG's activities are aimed at ensuring that European views on the development of financial reporting standards are properly and clearly articulated in the international standard-setting process, so that ultimately IFRS Standards are fit for use in Europe. EFRAG is the technical adviser to the European Commission, providing technical expertise and advice on IFRS Standards.

In 2018, EFRAG extended its activities in the wider corporate reporting debate: following a request of the EC in its Action Plan on Financing Sustainable Growth, EFRAG established a European Corporate Reporting Lab with the objective of stimulating innovations in the field of corporate reporting in Europe by identifying and sharing good practices. In 2020, EFRAG received two mandates from the European Commission on preparatory work on EU sustainability reporting standard-setting. The reports, with the recommendations following these mandates, were published in March 2021.

EFRAG's mission is to serve the European public interest in both financial reporting and sustainability reporting by developing and promoting European views in the field of corporate reporting and by developing draft EU Sustainability Reporting Standards.

In its sustainability reporting activities, EFRAG develops draft EU Sustainability Reporting Standards that are accompanied by basis for conclusions, and cost-benefit analyses including impact analysis and digital guidance, and these are provided to the European Commission as technical advice. EFRAG seeks input from all stakeholders, and obtains evidence about relevant European circumstances, throughout the standard-setting process. Its legitimacy is built on transparency, governance, due process (which may include field tests and outreaches), public accountability and thought leadership. This enables EFRAG to speak convincingly, clearly and consistently, and be recognised as the European voice in corporate reporting.

EFRAG has in 2022 put in place its permanent structure for its Sustainability Reporting Pillar, notably with its technical bodies the EFRAG Sustainability Reporting Board and the EFRAG Sustainability Reporting TEG.

Under the Corporate Sustainability Reporting Directive of 2022 EFRAG is tasked with preparing technical advice in the form of draft ESRS accompanied by bases for conclusions, cost-benefit analyses including impact analysis and digital guidance, with a proper due process, public oversight and transparency, contributing to the delegated acts through which the draft ESRS will be adopted.

EFRAG seeks input from all stakeholders, and obtains evidence about specific European circumstances, throughout the standard-setting process. Its legitimacy is built on transparency, governance, due process (which may include field tests, impact analyses and outreaches), public accountability and thought leadership. This enables EFRAG to speak convincingly, clearly and consistently, and be recognised as the European voice in corporate reporting.

EFRAG's legitimacy is built on transparency, governance, due process, public accountability and thought leadership.

EFRAG is operating in a fast-evolving environment. It is attentive to the need to adapt its activities to meet new opportunities and challenges in corporate reporting.
