DRAFT EUROPEAN SUSTAINABILITY REPORTING STANDARDS

2. ESRS implementation prioritisation / phasing-in

April 2022

Open for comments until 8 August 2022

PTF-ESRS

Project Task Force on European sustainability reporting standards

 **EFRAG**

2. ESRS implementation prioritisation / phasing-in

Application provisions

In order to facilitate the first-time application of set 1, ESRS 1 includes two provisions:

Application Provision AP1 which exempts undertaking to reports comparatives for the first reporting period, and

Application Provision AP2 which proposes transitional measures for entity-specific disclosures which consists in allowing the undertaking to continue to use, for 2 years, disclosures it has consistently used in the past, providing certain conditions are met, as described in paragraph 154.

Q51: to what extent do you support the implementation of Application Provision AP1?

1/ Not at all 2/ To a limited extent with strong reservations, 3/ To a large extent with some reservations 4/ Fully 5/ No opinion

Q52: to what extent do you support the implementation of Application Provision AP2?

Q53: what other application provision facilitating first-time application would you suggest being considered?

Please explain why

ESRS implementation prioritisation / phasing-in options

Set 1 proposes a comprehensive set of standards aimed at achieving the objectives of the CSRD proposal, with the exception of the standards to be included in Set 2.

Acknowledging the fact that the proposed vision of a comprehensive sustainability reporting might be challenging to implement in year one for the new preparers and potentially to some of the large preparers as well, EFRAG will consider using some prioritisation / phasing-in levers to smoothen out the implementation of the first set of standards.

The following questions aim at informing EFRAG's and ultimately the European Commission's decision as to what disclosure requirements should be considered for phasing-in, based on implementation feasibility / challenges and potentially other criteria, and over what period of time their implementation should be phased-in.

Q54: for which one of the current ESRS disclosure requirements (see Appendix I) do you think implementation feasibility will prove challenging? and why?

Given the critical importance of implementation prioritisation / phasing-in, please justify and illustrate your response

Q55: over what period of time would you think the implementation of such “challenging” disclosure requirements should be phased-in? and why?

Given the critical importance of implementation prioritisation / phasing-in, please justify and illustrate your response

Q56: beyond feasibility of implementation, what other criteria for implementation prioritisation / phasing-in would recommend being considered? And why?

Given the critical importance of implementation prioritisation / phasing-in, please justify and illustrate your response

Q57: please share any other comments you might have regarding ESRS implementation prioritisation / phasing-in
