

**EFRAG ACADEMIC WORKSHOP****MEASUREMENT IN FINANCIAL REPORTING -  
CHALLENGES AND OBJECTIVES**  
**SAVE THE DATE**

Tuesday 5 September 2017

14:00 – 18:00

EFRAG's offices in Brussels

EFRAG invites academics to join a workshop on various aspects of measurement in financial reporting. The objective of the workshop is to debate ideas on some of the main issues around measurement (e.g. uncertainty and discounting) and how these can be investigated. The input received from the academic community via the workshop will help shape EFRAG research activities going forwards.

A light lunch will be available from 13:30. Drinks will be served after the workshop.

A detailed programme for the workshop will be published in July.

Participation in the workshop is free-of-charge and is restricted to academics.

Registration is required before 16 August 2017.
