ACCOUNTING MEETS VALUATION FAIR VALUE IN FINANCIAL REPORTING

5 December 2017, 13:00 – 18:00

Brussels

The European Financial Reporting Advisory Group (EFRAG) is organising a conference on the use of fair value in financial reporting. Fair value in reporting is a topic that encourages debate. While some feel that it enhances the transparency and relevance of financial statements, others point out the challenges in applying fair value and question the volatility that can result.

The EFRAG event is a great opportunity to hear the latest views on the use of fair value. With a keynote speech from Sir David Tweedie, Chairman of the Board of Trustees of the International Valuation Standards Council (IVSC), other speakers having their say on this compelling topic include: Jannis Bischof, Professor of Accounting, University of Mannheim and member of the EFRAG Financial Instruments Working Group; Stephen Cooper, analyst and former IASB member; Henk Oosterhout, Managing Director Duff & Phelps; Peter Sampers, Chairman of the DASB and EFRAG Board member and Ann Tarca, IASB member.

The event will gather experts to discuss both the theory and practice of fair value. For more information, see the event programme on the [EFRAG website](#).

Be sure to reserve your place now for the event where accounting meets valuation!
