

EFRAG SECRETARIAT PAPER FOR PUBLIC MEETING

This paper has been prepared by EFRAG Secretariat for discussion at a public meeting of the EFRAG Board. The paper does not represent the official views of EFRAG or any individual member of the EFRAG Board or EFRAG TEG. The papers are made available to enable the public to follow the discussions in the meeting. Tentative decisions are made in public and reported in EFRAG Update. EFRAG positions as approved by the EFRAG Board are published as comment letters, discussion or position papers or in any other form considered appropriate in the circumstances.

Technical Work Plan June – November 2015

Objective

- 1 The objective of this session is for the EFRAG Board to conduct its monthly review of the technical work plan and advise of any necessary changes.

Background

- 2 In the past, the Board requested that:
 - (a) an explanation be provided for any IASB implementation projects that are classified as significant; and
 - (b) the work plan be updated and presented for approval at every meeting.
- 3 Attachment 1 to this note contains the reasoning behind classifying IASB implementation projects as significant. There are no new Implementation projects classified as significant in the technical work plan.
- 4 Attachment 2 to this note contains the draft technical work plan, based on the IASB's work plan as at 27 May 2015 and the proactive technical work plan. It also identifies the expected timing of written procedures.

Questions for the EFRAG Board

- 5 Do you agree that the projects identified should remain classified as significant?
- 6 Do you have any comments on the revised technical work plan?

Attachment 1: Basis for classifying minor projects as significant

Clarifications to IFRS 15

- 7 This project was classified as significant by the EFRAG Board at its March 2015 meeting. The forthcoming exposure draft will reflect the IASB's decisions resulting from the discussions in its first Transition Resource Group which will include both:
- (a) decisions to change IFRS 15; and
 - (b) decisions not to change IFRS 15 and to differ from the FASB's changes to the US GAAP equivalent to IFRS 15.

Fair value measurement: unit of account

- 8 This project was classified as significant because of the split views between those who consider that the fair value should be the block of shares and those who consider that the fair value should be represented by the quoted price of the individual instrument multiplied by the number of instruments held.
- 9 This classification may change once the IASB has considered the comments received on the recent Exposure Draft.

Investment entities: applying the consolidation exception

- 10 This standard is classified as significant because of the concerns raised both to EFRAG and to the Accounting Regulatory Committee.
- 11 The key concerns relate to:
- (a) the potential loss of information from not requiring intermediate parent entities that are investment entities to prepare consolidated financial statements; and
 - (b) the potential conflict between this standard and the Accounting Directive requiring consolidated financial information.
- 12 The final endorsement advice is planned to be considered at the 21-22 July 2015 meeting of the EFRAG Board.

Sale or contribution of assets between an investor and its associate or joint venture

- 13 This project is classified as significant because:
- (a) There is a technical loophole in IAS 28 *Investments in Associates and Joint Ventures*. This has been brought to the attention of the IASB and the Exposure Draft expected in Q2 2015 relating to the *Elimination of gains or losses arising from transactions between an entity and its associate or joint venture* will contain a proposal to rectify the problem; and
 - (b) The EFRAG Board has recommended to the European Commission that the endorsement process on this amendment be deferred and addressed at the same time as the forthcoming Exposure Draft.

Attachment 2: Work plan June – November 2015

Legend

Bold = EFRAG Board decision point

WP = Written procedure

DP = Discussion paper

ED = Exposure draft

DCL = Draft comment letter

FCL = Final comment letter

DEA = Draft endorsement advice

FEA = Final endorsement advice

Project	Most recent status		2015						
			June 24	July 21-22	July 29	Sept 1	Sept 21	Oct 28	Nov 24
