AMENDMENTS TO IAS 1 PRESENTATION OF FINANCIAL STATEMENTS	4
APPROVAL BY THE BOARD OF CLASSIFICATION OF LIABILITIES AS CURRENT OR NON-CURRENT ISSUED IN JANUARY 2020	8
AMENDMENTS TO THE BASIS FOR CONCLUSIONS ON IAS 1 PRESENTATION OF FINANCIAL STATEMENTS	9

Amendments to IAS 1 *Presentation of Financial Statements*

Paragraphs 69, 73, 74 and 76 are amended. Paragraphs 72A, 75A, 76A, 76B and 139U are added. Paragraph 139D is deleted. Headings are added before paragraphs 70, 71, 72A and 76A. Paragraphs 70, 71, 72 and 75 are not amended, but are included for ease of reading. New text is underlined and deleted text is struck through.

Structure and content

Statement of financial position

...

Current liabilities

69 An entity shall classify a liability as current when:

- (a) it expects to settle the liability in its normal operating cycle;
- (b) it holds the liability primarily for the purpose of trading;
- (c) the liability is due to be settled within twelve months after the reporting period; or
- (d) it does not have ~~an unconditional~~ the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period ~~(see paragraph 73). Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.~~

An entity shall classify all other liabilities as non-current.

Normal operating cycle (paragraph 69(a))

70 Some current liabilities, such as trade payables and some accruals for employee and other operating costs, are part of the working capital used in the entity's normal operating cycle. An entity classifies such operating items as current liabilities even if they are due to be settled more than twelve months after the reporting period. The same normal operating cycle applies to the classification of an entity's assets and liabilities. When the entity's normal operating cycle is not clearly identifiable, it is assumed to be twelve months.

Held primarily for the purpose of trading (paragraph 69(b)) or due to be settled within twelve months (paragraph 69(c))

71 Other current liabilities are not settled as part of the normal operating cycle, but are due for settlement within twelve months after the reporting period or held primarily for the purpose of trading. Examples are some financial liabilities that meet the definition of held for trading in IFRS 9, bank overdrafts, and the current portion of non-current financial liabilities, dividends payable, income taxes and other non-trade payables. Financial

CLASSIFICATION OF LIABILITIES AS CURRENT OR NON-CURRENT

liabilities that provide financing on a long-term basis (ie are not part of the working capital used in the entity's normal operating cycle) and are not due for settlement within twelve months after the reporting period are non-current liabilities, subject to paragraphs 74 and 75.

- 72 An entity classifies its financial liabilities as current when they are due to be settled within twelve months after the reporting period, even if:
- (a) the original term was for a period longer than twelve months; and
 - (b) an agreement to refinance, or to reschedule payments, on a long-term basis is completed after the reporting period and before the financial statements are authorised for issue.

Right to defer settlement for at least twelve months (paragraph 69(d))

72A An entity's right to defer settlement of a liability for at least twelve months after the reporting period must have substance and, as illustrated in paragraphs 73–75, must exist at the end of the reporting period. If the right to defer settlement is subject to the entity complying with specified conditions, the right exists at the end of the reporting period only if the entity complies with those conditions at the end of the reporting period. The entity must comply with the conditions at the end of the reporting period even if the lender does not test compliance until a later date.

73 ~~If an entity expects, and has the discretion, right, at the end of the reporting period, to refinance or roll over an obligation for at least twelve months after the reporting period under an existing loan facility, it classifies the obligation as non-current, even if it would otherwise be due within a shorter period. However, when refinancing or rolling over the obligation is not at the discretion of the entity (for example, there is no arrangement for refinancing) If the entity has no such right, the entity does not consider the potential to refinance the obligation and classifies the obligation as current.~~

74 When an entity breaches a ~~provision condition~~ of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand, it classifies the liability as current, even if the lender agreed, after the reporting period and before the authorisation of the financial statements for issue, not to demand payment as a consequence of the breach. An entity classifies the liability as current because, at the end of the reporting period, it does not have ~~an unconditional~~ the right to defer its settlement for at least twelve months after that date.

75 However, an entity classifies the liability as non-current if the lender agreed by the end of the reporting period to provide a period of grace ending at least twelve months after the reporting period, within which the entity can rectify the breach and during which the lender cannot demand immediate repayment.

75A Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability for at least twelve months after the reporting period. If a liability meets the criteria in paragraph 69 for classification as non-current, it is classified as non-current even if

management intends or expects the entity to settle the liability within twelve months after the reporting period, or even if the entity settles the liability between the end of the reporting period and the date the financial statements are authorised for issue. However, in either of those circumstances, the entity may need to disclose information about the timing of settlement to enable users of its financial statements to understand the impact of the liability on the entity's financial position (see paragraphs 17(c) and 76(d)).

76 ~~In respect of loans classified as current liabilities, if~~ If the following events occur between the end of the reporting period and the date the financial statements are authorised for issue, those events are disclosed as non-adjusting events in accordance with IAS 10 *Events after the Reporting Period*:

- (a) ~~refinancing on a long-term basis of a liability classified as current (see paragraph 72);~~
- (b) ~~rectification of a breach of a long-term loan arrangement classified as current (see paragraph 74); and~~
- (c) ~~the granting by the lender of a period of grace to rectify a breach of a long-term loan arrangement ending at least twelve months after the reporting period, classified as current (see paragraph 75); and~~
- (d) ~~settlement of a liability classified as non-current (see paragraph 75A).~~

Settlement (paragraphs 69(a), 69(c) and 69(d))

76A For the purpose of classifying a liability as current or non-current, settlement refers to a transfer to the counterparty that results in the extinguishment of the liability. The transfer could be of:

- (a) cash or other economic resources – for example, goods or services;
or
- (b) the entity's own equity instruments, unless paragraph 76B applies.

76B Terms of a liability that could, at the option of the counterparty, result in its settlement by the transfer of the entity's own equity instruments do not affect its classification as current or non-current if, applying IAS 32 *Financial Instruments: Presentation*, the entity classifies the option as an equity instrument, recognising it separately from the liability as an equity component of a compound financial instrument.

CLASSIFICATION OF LIABILITIES AS CURRENT OR NON-CURRENT

139U *Classification of Liabilities as Current or Non-current, issued in January 2020 amended paragraphs 69, 73, 74 and 76 and added paragraphs 72A, 75A, 76A and 76B. An entity shall apply those amendments for annual reporting periods beginning on or after 1 January 2022 retrospectively in accordance with IAS 8. Earlier application is permitted. If an entity applies those amendments for an earlier period, it shall disclose that fact.*

Approval by the Board of *Classification of Liabilities as Current or Non-current* issued in January 2020

Classification of Liabilities as Current or Non-current, which amended IAS 1, was approved for issue by all 14 members of the International Accounting Standards Board.

Amendments to the Basis for Conclusions on IAS 1 *Presentation of Financial Statements*

Paragraphs BC38L–BC38P and the heading above paragraph BC38L are deleted. The heading above paragraph BC39 is replaced by a new heading and sub-heading. Paragraphs BC48A–BC48H are added and headings are added above paragraphs BC48A and BC48F. New text is underlined and deleted text is struck through.

Current liabilities (paragraphs 69–76B)

Effect of events after the reporting period (paragraphs 69–76)

BC39 ...

Right to defer settlement for at least twelve months (paragraphs 69(d) and 72A–76)

BC48A Paragraph 69(d) specifies that, to classify a liability as non-current, an entity must have the right to defer settlement of the liability for at least twelve months after the reporting period. In January 2020, the Board amended aspects of this classification principle and related application requirements in paragraphs 73–76. The Board made the amendments in response to a request to reconcile apparent contradictions between paragraph 69(d)—which required an ‘unconditional right’ to defer settlement—and paragraph 73—which referred to an entity that ‘expects, and has the discretion, to’ refinance or roll over an obligation.

BC48B The Board added to the classification principle in paragraph 69(d) and the example in paragraph 73 clarification that an entity’s right to defer settlement must exist ‘at the end of the reporting period’. The need for the right to exist at the end of the reporting period was already illustrated in the examples in paragraphs 74 and 75 but was not stated explicitly in the classification principle.

AMENDMENTS TO IAS 1—JANUARY 2020

BC48C The Board also observed that the classification principle requires an assessment of whether an entity has the right to defer settlement of a liability and not whether the entity will exercise that right. Accordingly:

- (a) the Board amended paragraph 73, which discusses liabilities an entity has a right to roll over for at least twelve months after the reporting period. The Board deleted from paragraph 73 a suggestion that to classify such a liability as non-current, an entity must not only have the right to roll over the liability but also expect to exercise that right. The Board also aligned the terminology by replacing 'discretion' with 'right' in paragraph 73.
- (b) the Board added paragraph 75A, which explicitly clarifies that classification is unaffected by management intentions or expectations, or by settlement of the liability within twelve months after the reporting period.

BC48D The Board considered whether an entity's right to defer settlement needs to be unconditional. The Board noted that rights to defer settlement of a loan are rarely unconditional—they are often conditional on compliance with covenants. The Board decided that if an entity's right to defer settlement of a liability is subject to the entity complying with specified conditions, the entity has a right to defer settlement of the liability at the end of the reporting period if it complies with those conditions at that date. Accordingly, the Board:

- (a) deleted the word 'unconditional' from the classification principle in paragraph 69(d); and
- (b) added paragraph 72A to clarify that if an entity's right to defer settlement is subject to compliance with specified conditions:
 - (i) the right exists at the end of the reporting period only if the entity complies with those conditions at the end of the reporting period; and
 - (ii) the entity must comply with the conditions at the end of the reporting period even if the lender does not test compliance until a later date.

BC48E The Board considered whether to specify how management assesses an entity's compliance with a condition relating to the entity's cumulative financial performance (for example, profit) for a period extending beyond the reporting period. The Board concluded that comparing the entity's actual performance up to the end of the reporting period with the performance required over a longer period would not provide useful information—one of these measures would have to be adjusted to make the two comparable. However, the Board decided not to specify a method of adjustment because any single method could be inappropriate in some situations.

Settlement (paragraphs 76A–76B)

- BC48F While developing the amendments discussed in paragraphs BC48A–BC48E, the Board considered whether a liability is ‘settled’ when it is rolled over under an existing loan facility. The Board concluded that rolling over a liability does not constitute settlement because it is the extension of an existing liability, which does not involve any transfer of economic resources. The Board also observed that a liability is defined as an obligation ‘to transfer an economic resource’ and that some types of liabilities are settled by transferring economic resources other than cash. For example, performance obligations within the scope of IFRS 15 *Revenue from Contracts with Customers* are settled by transferring promised goods or services. The Board decided it would be helpful to clarify those aspects of the meaning of the term ‘settlement’ and so added paragraph 76A.
- BC48G While considering the meaning of the term settlement, the Board also considered liabilities an entity will or may settle by issuing its own equity instruments or, in other words, by converting the liability to equity. In *Improvements to IFRSs* issued in 2009, the Board had added to paragraph 69(d) a statement that ‘terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification’. The effect of this statement is that a bond that the holder may convert to equity before maturity is classified as current or non-current according to the terms of the bond, without considering the possibility of earlier settlement by conversion to equity.
- BC48H The Board concluded that, when it had added the statement about counterparty conversion options in 2009, it had intended the statement to apply only to liabilities that include a counterparty conversion option that meets the definition of an equity instrument and, applying IAS 32 *Financial Instruments: Presentation*, is recognised separately from the host liability as the equity component of a compound financial instrument. The Board further concluded that, in other cases—that is, if an obligation to transfer equity instruments is classified applying IAS 32 as a liability or part of a liability—the transfer of equity instruments would constitute settlement of the liability for the purpose of classifying it as current or non-current. To reflect those conclusions, the Board moved the statement about counterparty conversion options from paragraph 69(d) to new paragraph 76B and clarified its scope.
