Section 3- Policies, Actions and Targets

Objective

1. This [draft] Section sets out the information required:
 - (a) in relation to policies, actions and targets to prevent, mitigate and remediate actual and potential material negative **impacts** and to address **material risks** (collectively, to 'manage material **sustainability matters**') for a material matter, either as required by Disclosure Requirements in the topical Sections of this Standard or on an entity-specific basis;
 - (b) about the undertaking's processes for engaging with **own workers**, workers in the **value chain**, **affected communities**, **consumers** and **end-users**, and their representatives on impacts if the undertaking has those processes in place; and
 - (c) about the undertaking's processes to remediate negative impacts and channels for **own workforce**, value chain workers, affected communities, consumers and end-users and to raise concerns if the undertaking has those processes in place.
2. This [draft] Section covers ~~impact and risk management and~~ policies, actions and targets ~~areas as~~ defined in Section 1 *General requirements* of this [draft] Standard, and it is applicable in conjunction with Section 2 *General disclosures* and the topical Sections of this [draft] Standard.
3. The undertaking shall apply the requirements in this Section when it concludes that the corresponding topic is material (according to chapter 3.3 *Double materiality*, 3.4 *Impact materiality* and 3.5 *Financial materiality* of Section 1). Following the undertaking's assessment of the **materiality** of the information according to paragraph 36 of Section 1, the **sustainability statement** shall include those disclosures prescribed in this Section that are assessed to be material.
4. The requirements in this Section shall be considered when the undertaking reports on a voluntary basis on material positive **impacts** and/or **opportunities**.
- ~~4.5. Disclosures. Requirements additional information related to an undertaking's own workforce, workers in the value chain, affected communities and consumers and end-users are located in Section 2, Disclosure Requirement SBM-3 and corresponding Application Requirements and in the Disclosure Requirements IR-3 and IR-4 and their corresponding Application Requirements in Appendix A of this Section. They concern policies, actions and targets that the undertaking shall or may disclose on with regard to impacts or risks connected with the undertaking's own operations and upstream and downstream value chain, including through its products and services, as well as through its business relationships. And policies, actions and targets that arise from risks of the undertaking, if its operations lead to material impacts on one or more of these stakeholder groups, if its relationships with and dependencies on one or more of them create material risks for the undertaking or if material impacts and risks arise through the undertaking's business relationships in its upstream and/or downstream value chain. Sustainability matters that relate to an undertaking's workers in the value chain, affected communities and consumers and end-users are listed in Section 1 General Requirements, Appendix A, AR 2348 of this standard. In the cases of workers in the value chain, affected communities and end-users, s~~

Disclosure Requirement 11 (IR-3) – Policies and actions in relation to sustainability matters

~~5. The undertaking shall disclose information on its adopted policies and the actions taken or planned to be taken to manage material sustainability matters.~~

6. The objective of this Disclosure Requirement is to set the information that shall be provided when reporting on **policies** and **actions** in relation to a material matter.

7. For each material sustainability matter ~~(i.e. topic, sub-topic and/or sub-sub-topic) that it considers material~~, the undertaking shall disclose:

(d) policies that it has in place to prevent, mitigate and remediate actual and potential impacts and to address risks; and

(e) key **actions** taken or planned to address material impacts and risks and, where applicable, to achieve the objectives of related **policies**.

The disclosure should reflect the content of the relevant policies and actions, e.g. when the undertaking has a policy at topical level, the disclosure ~~should~~ may cover more than one sub-topic in the same policy.

8. When providing disclosures on **policies**, the undertaking shall include the following minimum set of information:

(f) a description of the key contents of the **policy**, including its general objectives, and of which material **impacts** or **risks** the policy relates to;

(g) a description of the scope of the policy (in terms of activities, **value chain, including relevant subsidiaries**, geographies and, if relevant, affected **stakeholder groups**);

(h) the most senior level in the undertaking's organisation that is accountable for the implementation of the policy;

(i) a reference, ~~if the policy is including it relevant, to the any~~ third-party standards or initiatives ~~that to which~~ the undertaking may have committed itself to respect through the implementation of the policy;

(j) if the undertaking in defining a policy has considered stakeholders' views and interests relevant, a description of the consideration given to the interest of these key **stakeholders** in setting thise policy; and

(k) if the policy is made available to potentially affected stakeholders and to stakeholders who need to help implement it relevant, whether and how the undertaking makes thise policy available to ~~potentially affected stakeholders and to stakeholders who need to help implement it those groups of stakeholders.~~

9. When providing disclosures on **actions**, the undertaking shall disclose the following minimum set of information:

(l) the list of key actions taken in the reporting year and planned for the future as well as their expected outcomes;

(m) the scope of the key actions (i.e., coverage in terms of activities, **value chain**, geographies and, ~~where if~~ applicable, affected **stakeholder** groups);

(n) the time horizons under which the undertaking intends to complete each key action;

(o) if the undertaking has implemented them applicable, a description of the key actions taken (along with results) to provide for, cooperate in or support the provision of **remedy** for those harmed by actual material impacts; and,

Draft Revised LSME Section 3 – Policies, Actions and Targets

- (p) if the undertaking has a process in place to monitor progress of its actions or action plans disclosed in prior periods applicable, quantitative and qualitative information regarding the progress of those actions or action plans ~~actions or action plans disclosed in prior periods~~.
10. Where the implementation of an action plan requires significant operational expenditures (Opex) and/or capital expenditures (Capex), the undertaking shall:
- (q) describe the type of current and future financial and other resources allocated to the action plan, including, if the action plan has been financed with sustainable finance instruments such as green bonds, social bonds and green loans ~~applicable~~, the relevant terms of sustainable finance ~~those instruments such as green bonds, social bonds and green loans~~, the environmental or social objectives, and whether the ability to implement the **actions** or action plan depends on specific preconditions, e.g., granting of financial support or public **policy** and market developments;
 - (r) provide the amount of current financial resources ~~and explain how they relate to the most relevant amounts presented in the financial statements~~; and
 - (s) provide the amount of future financial resources.

~~41. The corresponding disclosures related to **policies** and **actions** shall be located alongside disclosures prescribed by the relevant topical sections. When a single policy or the same actions address several interconnected **sustainability matters**, the undertaking may disclose the required information in its reporting under one topical section and cross-reference it in its reporting under other topical sections.~~

~~42.11. When disclosing information on **policies** and **actions** in relation to a material sustainability matter, subject to paragraphs 33, ~~and 34~~ and 36 of Section 1 of this [draft] Standard ~~the undertaking shall apply the additional topical requirements are included~~ set in the following table. Additional information and guidance are provided in the Application Requirements IR 3 (AR 1 to AR 116 and in the non-authoritative guidance document) issued together with this [draft] Standard.~~

~~43.12. In particular, the table below, for **policies** and **actions** are defined defines disclosure requirements, stemming from other EU Regulations, in relation to policies and actions pertaining to certain ~~pertaining to a~~ material matters (the list of sustainability topics, sub-topics and sub-sub-topics is provided in AR 23 of Section 1), the undertaking: ~~shall include the datapoints derived from EU legislation (summarised in Table of AR 6).~~~~

Appendix A: Application Requirements – Section 3 Policies, Actions and Targets

Disclosure Requirement 11 (IR-3) – Policies and actions in relation to sustainability matters

- AR 1. In disclosing information on policies and actions, the undertaking may include such a disclosure in a centralised section or in one topical section of its sustainability statement and cross-referencing to the other topical sections (specially if a single policy or the same actions address several interconnected sustainability matters) or divide and present the relevant disclosure in each sustainability topical section of the sustainability statement.
- AR 2. A single policy may apply to several material sustainability matters, including matters addressed by more than one topical section of this [draft] Standard. For example, if a single policy covers both an environmental matter and a social matter, the undertaking may report on the policy in the environmental section of its sustainability statement. In this case, in the social section it ~~may~~ cross-reference the environmental section where the policy is reported. Equally, a policy may be reported in the social section by cross-referencing the environmental section.
- AR 3. SMEs and undertakings with less resources may have few (or no) policies formalised in written documents, but this does not necessarily mean they do not have policies to report on.
- AR 4. If the undertaking has not formalised a policy but has implemented actions or defined targets through which the undertaking seeks to address material impacts and risks, it ~~may~~ disclose them as actions and/or targets.
- AR 5. As an illustration, consider the following:
- (t) if the undertaking has implemented actions in relation to its employees for ~~employee management's sake~~ (i.e., to ensure **equal treatment** or a health and safety management system) but has not formalised a policy, it describes the actions undertaken to address the related material impacts and risks. Furthermore, the undertaking, if applicable, discloses which organisational level has been assigned responsibility for implementing these actions or action plans (i.e., department, management, top management, etc.), and
 - (u) if the undertaking has defined targets in relation to material impacts or risks (i.e., to reduce emissions, **water consumption**, etc.) but has not formalised a policy, it describes these targets and, if applicable, the department or person in charge of measuring and reporting on the progress achieved towards these targets.
- AR 6. Key **actions** are those actions that materially contribute to achieving the undertaking's objectives in addressing material **impacts** and **risks**. For reasons of understandability, key actions may be aggregated where appropriate.
- AR 7. Information on resource allocation to implement actions may be presented in the form of a table and broken down, across the relevant time horizons, by capital expenditure and operating expenditure, by resources applied in the current reporting year, and by the planned allocation of resources over specific time horizons.

~~AR 8. When disclosing the information required under paragraphs 3 and 4 of this Section on a material sustainability topic, as a result of its **materiality** assessment the undertaking shall disclose additional topic-specific information, as reported in the table below.~~

~~AR 9-AR 8. With reference to paragraph 13 of this Section, additional information and guidance on policies and actions implemented in relation to a material sustainability matter are provided in the following Application Requirements; and in addition to the information required by the table of AR 6, as a result of its **materiality** assessment the undertaking shall in connection to a material sustainability topic disclose additional topic-specific information as defined in the following paragraphs.~~

ENVIRONMENT

Policies and actions for climate change

~~AR 10. The undertaking shall indicate whether and how its **policies** address the following areas:~~

- ~~(a) climate change mitigation;~~
- ~~(b) climate change adaptation;~~
- ~~(c) energy efficiency;~~
- ~~(d) **renewable energy** deployment; and/or~~
- ~~(e) other areas.~~

~~— Guidance / Additional information for Policies on Climate change~~

~~AR 11-AR 9. The undertaking may explain how the **Policies** related to **climate change mitigation** address the management of the undertaking's **GHG emissions**, GHG removals and **transition risks** over different time horizons in its own operations and/or in the upstream and downstream **value chain** (including relevant subsidiaries).~~

~~AR 12-AR 10. The undertaking may explain how the **Policies** related to **climate change adaptation** address the management of the undertaking's physical climate **risks** and climate change adaptation-related **transition risks**.~~

~~— Actions for climate change~~

~~AR 13-AR 11. When listing **key actions** taken in the reporting year and planned for the future, the undertaking shall present the **climate change mitigation** actions by decarbonisation lever including the nature-based solutions (i.e., energy efficiency, electrification, fuel switching, use of **renewable energy**, products change, and supply-chain decarbonisation).~~

~~AR 1-AR 12. When describing the outcome of the **actions** for **climate change mitigation**, the undertaking ~~may~~ **shall** include the achieved and expected **GHG emission reductions**.~~

~~AR 14. When disclosing its climate change adaptation and mitigation actions, the undertaking shall relate significant monetary amounts of CapEx and OpEx that are required to implement the actions to:~~

~~(v) AR 13. the relevant line items or notes in the financial statements;~~

~~(w)(a) the key performance indicators required under Commission Delegated Regulation (EU) 2020/852; and,~~

~~(b) if applicable, to the CapEx plan required by Commission Delegated regulation (EU) 2021/2178.~~

(x) In doing so, the undertaking shall consider ESRS E1 AR 20 and AR 22.

~~AR 2. When disclosing its transition plan (as defined in ID 1 of paragraph 12), the undertaking is expected to provide a high-level explanation of how it will adjust its strategy and business model to ensure compatibility with the transition to a sustainable economy and with the limiting of global warming to 1.5°C in line with the Paris Agreement (or an updated international agreement on climate change) and the objective of achieving climate neutrality by 2050 with no or limited overshoot as established in Regulation (EU) 2021/1119 (European Climate Law), and where applicable, how it will adjust its exposure to coal, and oil and gas-related activities. When disclosing information on resources, if applicable, the undertaking may shall only disclose the significant OpEx and CapEx amounts required for the implementation of the **actions** related to climate change, as the purpose of this information is to demonstrate the credibility of its actions rather than to reconcile the disclosed amounts to the financial statements. The disclosed CapEx and OpEx amounts may shall be the additions made to both tangible and intangible assets during the current financial year as well as the planned additions for future periods when the implementation of the actions is expected. The disclosed amounts may shall only be the incremental financial investments directly contributing to the achievement of the undertaking's **targets**.~~

AR 14.

~~AR 15. The amounts of OpEx and CapEx required for the implementation of the **actions** related to climate change may shall be consistent with the key performance indicators (CapEx and OpEx being the key performance indicators) and, if applicable, the CapEx plan required by Commission Delegated Regulation (EU) 2021/2178. The undertaking may shall account for any potential discrepancies between the significant OpEx and CapEx amounts disclosed under this Standard and the key performance indicators disclosed under Commission Delegated Regulation (EU) 2021/2178 due to, for instance, the disclosure of non-eligible economic activities as defined in that delegated regulation. The undertaking may structure its actions by economic activity to compare its OpEx and CapEx and, if applicable, its OpEx and/or CapEx plans, to its Taxonomy-aligned key performance indicators.~~

~~AR 16. If the undertaking that operates in high climate impact sectors has adopted a transition plan for climate change mitigation, it shall provide information about it, including an explanation of how its GHG emission reduction targets are compatible with the limiting of global warming to 1.5°C;:~~

~~(a) AR 15. For undertakings with economic activities that are covered by delegated regulations on climate adaptation or mitigation under the Taxonomy Regulation, the undertaking shall may include an explanation of any objective or plans (CapEX, CapEx plans, OpEx) that the undertaking has for aligning its economic activities (revenues, CapEx, OpEx) with the criteria established in those delegated regulations;: and~~

~~if applicable, a disclosure of significant CapEx amounts invested during the reporting period related to coal, oil and gas-related economic activities.~~

~~AR 2: AR 16. In case the undertaking operates in high climate impact sectors and does not have a transition plan for climate change mitigation in place, it may indicate whether and, if so, when it will adopt such a transition plan.~~

Policies and actions for pollution

AR 17. When describing its policies on **pollution**, the undertaking ~~may shall~~ indicate whether and how its **policies** address the following areas where material:

Draft Revised LSME Section 3 – Policies, Actions and Targets

- (a) mitigating negative impacts related to pollution of air, water and soil, including prevention and control;
- (b) substituting and minimising the use of substances of concern and phasing out substances of very high concern, in particular for non-essential societal use and in consumer products; and
- (c) avoiding incidents and emergency situations and, if and when they occur, controlling and limiting their impact on people and the environment.

AR 18. When describing its **policies** on **pollution**, the undertaking ~~may~~ consider including information on the **pollutant(s)** or **substance(s)** covered.

~~Guidance / Additional information for Policies on Pollution~~

AR 19. When disclosing information on policies related to **pollution**, the undertaking may include contextual information on the relation between its implemented policies and how they may contribute to the EU Action Plan 'Towards a Zero Pollution for Air, Water and Soil' with, for instance, elements on

- (a) how it is or may be affected by the targets and measures of the EU Action Plan and the revision of existing directives (e.g., the Industrial Emissions Directive) and
- (b) how it intends to reduce its pollution footprint to contribute to these targets.

Policies and actions for water and marine resources

AR 20. When disclosing the information on **policies** related to water and **marine resources**, the undertaking ~~may~~ indicate, where material, whether and how its **policies** address:

- (a) water management, including:
 - i. the use and sourcing of water and marine resources in its own operations;
 - ii. water treatment as a step towards more sustainable sourcing of water; and
 - iii. the prevention and abatement of water **pollution** resulting from its activities;
- (b) product and service design in view of addressing water-related issues and the preservation of marine resources; and
- (c) the commitment to reduce material **water consumption** in **areas at water risk** in its own operations along the upstream and downstream **value chain**.

~~Actions for water and marine resources~~

AR 21. When disclosing information on **actions** related to water and **marine resources**, the undertaking ~~may~~ specify actions and resources in relation to **areas at water risk**, including **areas of high-water stress**.

~~Guidance / Additional information for Actions on Water and marine resources~~

AR 22. In the case of collective action or action plans involving other **stakeholders**, the undertaking may provide information on those specific collective **actions** and the related involved parties.

Policies and actions for biodiversity and ecosystems

~~— Guidance / Additional information for Policies on Biodiversity and ecosystems~~

AR 23. When disclosing the information on **policies** related to **biodiversity** and **ecosystems**, the undertaking may disclose whether the policy allows the undertaking to:

- (a) avoid its negative impacts on biodiversity and ecosystems in its own operations and related upstream and downstream value chain;
- (b) reduce and minimise its negative impacts that cannot be avoided on biodiversity and ecosystems in its operations and throughout the upstream and downstream value chain;
- (c) restore and rehabilitate degraded ecosystems or restore cleared ecosystems following exposure to impacts that cannot be completely avoided and/or minimised; and
- (d) mitigate its material biodiversity loss drivers.

AR 24. When disclosing **policies** related to social consequences of **biodiversity** and **ecosystems**, the undertaking may notably refer to the Nagoya Protocol and to the Convention for Biological Diversity (CBD)

~~— Actions for biodiversity and ecosystems~~

AR 25. When disclosing the information on **actions** related to **biodiversity** and **ecosystems**, the undertaking:

~~i.(e) may shall~~ disclose whether it used biodiversity offsets in its action plans and, if so, provide a description of the offsets used, including area, type, the quality criteria applied and the standards that the biodiversity offsets comply with; and

~~ii.(f) may shall~~ describe whether and how it has incorporated nature-based solutions into biodiversity and ecosystems-related actions.;

~~— Guidance / Additional information for Actions on Biodiversity and ecosystems~~

AR 26. In addition, when disclosing the information on **actions** related to biodiversity and **ecosystems**, the undertaking may disclose how it has applied the mitigation hierarchy with regard to its actions (avoidance, minimisation, restoration/rehabilitation, and compensation or offsets).

AR 27. The undertaking may disclose whether it considers an “avoidance” action plan. An avoidance action plan prevents damages before they take place. An example of avoidance is altering the **biodiversity** and ecosystem footprint of a project to avoid destruction of natural **habitat** on the **site** and/or establishing set-asides where priority biodiversity values are present and will be conserved.

Policies and actions for resource use and circular economy

~~— Policies for resource use and circular economy~~

AR 28. When disclosing the information on **policies** related to resource use and **circular economy**, the undertaking ~~may shall~~ indicate, where material, whether and how its policies address the following matters:

~~(a)(g)~~ transitioning away from use of virgin resources, including relative increases in use of secondary (recycled) resources; and

~~(b)(h)~~ sustainable sourcing and use of renewable resources.

~~— Guidance / Additional information for Policies on Resource use and circular economy~~

AR 29. When disclosing the information on **policies** related to resource use and **circular economy**, the undertaking ~~shall consider~~may disclose whether and how its policies address:

~~(a)(i)~~ the waste hierarchy: (i) prevention; (ii) preparation for re-use; (iii) recycling; (iv) other recovery, e.g., energy recovery; and (v) disposal. In this context, waste treatment cannot be considered as recovery; and

~~(b)(j)~~ the prioritisation of the avoidance or minimisation of waste (be it through re-using, repairing, refurbishing, remanufacturing and repurposing) over waste treatment strategies (recycling). The concepts of eco-design,³ waste as a resource and post-consumer waste (at the end of a consumer-product lifecycle) should also be taken in consideration.

~~— Guidance / Additional information for Actions on Resource use and circular economy~~

~~AR 30.~~ When disclosing the information on **actions** related to **resource use** and **circular economy**, the undertaking may specify whether and how the actions and resources cover specific circular design and business practices, as well as the use of recyclates and the prevention and optimisation of waste.:

~~(a) higher levels of resource efficiency in use of technical and biological materials and water, particularly in relation to critical raw materials and rare earths as listed in the Raw Materials Information System;~~

~~(b) higher rates of use of secondary raw materials (recyclates);~~

~~(c) the application of circular design, leading to increased product durability and optimization of use as well as higher rates of reuse, repair, refurbishing, remanufacturing, repurposing and recycling;~~

~~(d) the application of circular business practices such as (i) value retention actions (maintenance, repair, refurbishing, remanufacturing, component harvesting, upgrading and reverse logistics, closed loop systems, and second hand retailing), (ii) value maximisation actions (product service systems, collaborative and sharing economy business models), (iii) end-of-life actions (recycling, upcycling, extended producer responsibility), and (iv) systems efficiency actions (industrial symbiosis);~~

~~(e) actions taken to prevent waste generation in the undertaking's upstream and downstream value chain; and~~

~~(f) AR 30. In addition to ESRS 2 MDR-A, the undertaking may specify whether and how an action and resources cover: the optimisation of waste management in line with the waste hierarchy.~~

Policies related to *an undertaking's own workforce, value chain workers, affected communities or consumers and end-users*

~~AR 31. When it describes its **policies** on concerning either its **own workforce, value chain workers, affected communities or consumers and end-users** for these matters that are~~

³ As established by the Directive 2009/125/EC.

Draft Revised LSME Section 3 – Policies, Actions and Targets

~~material~~ the undertaking shall disclose whether it engages with them. It shall further apply the following Application Requirements: its general approach to:

- (a) ~~engagement with people in~~ AR 323 and to AR 34 for its own workforce; ~~(refer to AR 33 to AR 34) and~~
- (b) ~~AR 34a55 and to AR 356 for value chain workers; measures to provide and/or enable~~ **remedy** for human rights **impacts** ~~(refer to AR 42 to AR 44).~~
- (c) ~~AR 3774 to AR 4176 for affected communities;~~
- ~~(b)(d)~~ AR 4297 and to AR 4498 for consumers and end-users.

~~AR 31-AR 32.~~ _____ If the undertaking has adopted an specific policies aimed at the elimination of anti-discrimination policy for its own workforce, it shall disclose this. ~~In addition, it~~ may also disclose which ~~grounds forms for of~~ discrimination are covered (racial and ethnic origin, colour, sex, sexual orientation, gender identity, disability, age, religion, political opinion, national extraction or social origin or other forms of discrimination covered by EU ~~regulation and/or~~ national law~~s~~).

Processes for engaging with an undertaking's own workforce and workers' representatives on impacts

~~AR 32.~~ If the undertaking engages with its **own workforce**, ~~when disclosing information under AR 30(a) the undertaking it~~ shall disclose ~~:~~

~~(a)~~ AR 33. its general processes for engaging, where relevant, with people in its own workforce and their representatives on actual and potential material **impacts** on them; ~~and~~

~~(b)~~ whether and how the perspectives of its own workforce inform its decisions or activities aimed at for managing the actual and potential material impacts on them. This shall include, where relevant, an explanation of:

AR 34. whether engagement occurs directly with the undertaking's own workforce or **workers' representatives**.

AR 35. If the undertaking engages with its own workforce it may further disclose:

~~(e)~~ (e) the stage(s) at which engagement occurs as well as the type of engagement and frequency of the engagement; ~~and,~~

~~(f)~~ (f) ~~where applicable,~~ any agreements that the undertaking has with **workers' representatives**, especially national, European or international trade unions or works councils, ~~related to about~~ the respect of human rights of its own workforce;

~~(g)~~ (g) how it engages with people in its workforce and **workers' representatives** on the **impacts on its own workforce** that may arise from reducing carbon **emissions** and transitioning to greener and climate-neutral operations, in particular restructuring, employment loss or creation, **training** and upskilling/reskilling, gender and social equity, and health and safety.

AR 36. If the undertaking ~~does not have cannot disclose the above required information because it has not adopted~~ a general process ~~to for~~ engaging with its **own workforce**, it may disclose ~~a timeframe in which by when it aims to have such a process in place~~ intends to introduce one.

AR-3. Processes for engaging with value chain workers on impacts

~~AR-xx AR 34a~~ If the undertaking engages with value chain workers and their representatives it shall disclose :

Draft Revised LSME Section 3 – Policies, Actions and Targets

AR 37. its general processes for engaging, where relevant, with workers in the **value chain** and their representatives on actual and potential material **impacts** on them.;~~and~~

~~— AR35 whether engagement occurs with value chain workers or their legitimate representatives directly or with credible proxies that have insight into their situation.~~

AR 38. If the undertaking engages with value chain workers and their representatives it may further disclose:

(h) ~~(a)~~ the stage(s) at which engagement occurs and the type of engagement and frequency of the engagement; and,

(i) ~~(b)~~ any agreements it has with global union federations about the human rights of workers in the value chain, including their right to bargain collectively.

AR 39. If the undertaking does not have a general process for engaging with **value chain workers**, it may disclose by when it intends to introduce one.

Processes for engaging with affected communities on impacts

~~— If the undertaking engages with **affected communities** and their representatives it shall disclose :~~

AR 40. its general processes for engaging, where relevant, with affected communities and their representatives on actual and potential material **impacts** on them.;~~and~~

~~— whether engagement occurs with affected communities, their **legitimate representatives** directly or with **credible proxies** that have insight into their situation. The undertaking shall disclose any **policies** for preventing and addressing **impacts on indigenous peoples**.~~

AR 41. Where **affected communities** are **indigenous peoples**, the undertaking shall shall disclose how it takes into account and ensures respect of their rights in its **stakeholder engagement** approach, including their right to **free, prior and informed consent** with regard to their cultural, intellectual, religious and spiritual property, activities affecting their lands, and territories and resources they customarily own, occupy or otherwise use, and legislative or administrative measures that affect them. It shall may also disclose whether and how **indigenous peoples** have been consulted on the engagement modalities, such as the agenda, nature and timing of engagement.

AR 42. If the undertaking does not have a general process for engaging with affected communities, it may disclose by when it intends to introduce one.

Processes for engaging with consumers and end-users on impacts

~~— If the undertaking engages with **consumers and end-users**, it shall disclose :~~

AR 43. its general processes for engaging, where relevant, with consumers and end-users and their representatives on actual and potential material **impacts** on them.;~~and~~

~~— whether engagement occurs with affected consumers and end-users or their **legitimate representatives** directly or with **credible proxies** that have insight into their situation.~~

AR 44. If the undertaking engages with **consumers and end-users** and their representatives it may further disclose the stage(s) at which engagement occurs and the type and frequency of engagement.

AR 45. If the undertaking does not have a general process for engaging with **consumers and end-users**, it may disclose by when it intends to introduce one.

Draft Revised LSME Section 3 – Policies, Actions and Targets

~~Guidance on 'processes for engaging with an undertaking's own workforce and workers' representatives, value chain workers, affected communities or consumers and end-users on impacts (AR 33 – AR 45)'~~

~~AR 33. When preparing the disclosures described in AR 33(b), the following may be considered:~~

- ~~(a) examples of 'stages at which engagement occurs, which are (i) determining the approach to mitigation and (ii) evaluating the effectiveness of mitigation;~~
- ~~(b) for 'type of engagement, these could be participation, consultation and/or information; and~~
- ~~(c) for the 'frequency of the engagement, information may be provided on whether engagement occurs on a regular basis or at certain points in a project or business process (for example, when a new harvest season begins or a new production line is opened), whether it occurs in response to legal requirements and/or in response to stakeholder requests and whether the result of the engagement is being integrated into the undertaking's decision-making processes.~~

~~AR 34. To illustrate how the perspectives of its **own workforce** have informed specific decisions or activities, the undertaking may provide examples from the current reporting period.~~

If the undertaking has agreements with national, European or international trade unions or with works councils related to the rights of people in its **own workforce**, this can be disclosed to illustrate how the agreement enables the undertaking to gain insight into the perspectives of such people.

~~AR 35. — The undertaking may provide examples from the reporting period to illustrate how the perspectives of its **own workforce** and **workers' representatives** have informed specific decisions or activities of the undertaking.~~

~~(AR 33 — AR 35) If the undertaking engages with its own workforce on actual and potential material impacts on them, The undertaking it may disclose shall consider the following aspects when fulfilling this Disclosure Requirement:~~

~~(a) the type of engagement (for example, information, consultation or participation) and its frequency (for example, ongoing, quarterly, annually);~~

~~(b) how feedback is recorded and integrated into decision-making and how people in the workforce are informed of the way in which their feedback has influenced decisions;~~

~~(c) whether engagement activities take place at the organisational level or at a lower level, such as at the site or project level, and in the latter case how information from engagement activities is centralised;~~

~~(d) the resources (for example, financial or human resources) allocated to engagement; and~~

~~(e) how it engages with people in its workforce and workers' representatives on the impacts on its own workforce that may arise from reducing carbon emissions and transitioning to greener and climate-neutral operations, in particular restructuring, employment loss or creation, training and upskilling/reskilling, gender and social equity, and health and safety.~~

~~AR 36. — The undertaking may also disclose the following information in relation to paragraph AR 3212 on diversity:~~

~~(a) how it engages with at-risk persons or persons in vulnerable situations (for example, whether it takes specific approaches and gives special attention to potential barriers);~~

~~(b) how it takes into account potential barriers to engagement with people in its workforce (for example, language and cultural differences, gender and power imbalances, or divisions within a community or group);~~

~~(c) how it provides people in its workforce with information that is understandable and accessible through appropriate communication channels;~~

~~(d) any conflicting interests that have arisen among its workforce and how the undertaking has resolved these conflicting interests; and~~

~~(e) how it seeks to respect the human rights of all stakeholders engaged, for example, their rights to privacy, freedom of expression and peaceful assembly and protest.~~

The undertaking may also report information about the effectiveness of processes for engaging with its **own workforce** from previous reporting periods. This applies in cases where the undertaking has assessed the effectiveness of these processes or derived lessons during the current reporting period. Processes used to track such effectiveness can include internal or external auditing or verification, impact assessments, measurement systems, **stakeholder** feedback, **grievance mechanisms**, external performance ratings

~~and benchmarking. Specific guidance for the disclosures about processes for engaging with affected communities~~

~~The undertaking may disclose the engagement with affected indigenous peoples to obtain their free, prior and informed consent if the undertaking's operations affect the lands, territories or resources that indigenous peoples customarily own, occupy or otherwise use, or if it relocates them from land or territories subject to traditional ownership or under customary use or occupation; or if it affects or exploits their cultural, intellectual, religious or spiritual property.~~

~~(AR 43 – AR 45)~~

~~Processes for remediating negative impacts and channels for an undertaking's own workforce, value chain workers, affected communities or consumers and end-users own workforce to raise concerns~~

~~AR 37. If the undertaking has in-place processes to provide for or cooperate in the remediating of negative impacts on people in either its own workforce, value chain workers, affected communities or consumers and end-users that the undertaking is connected with, as well as channels available for its own workforce to raise concerns and have them addressed, when disclosing information under AR 31(b) it shall disclose:~~

~~AR 46. its approach to and processes for providing or contributing to remedy where it has caused or contributed to afor material negative impacts on any of the aforementioned stakeholders people in its own workforce it has caused or contributed to, including whether and how the undertaking it assesses the provided remedy to be effectiveness of remedial measures.~~

~~(a) AR 47. If the undertaking has channels for either its own workforce, value chain workers, affected communities or consumers and end-users to raise their concerns and have them addressed it shall disclose them. and~~

~~(c) any channels it has in place for its own workforce any of the aforementioned stakeholders to raise their concerns or needs and have them addressed.~~

~~AR 38. The undertaking may disclose whether and how it assesses that people in its **own workforce** are aware of and trust these structures or processes as a way of raising their concerns or needs and have them addressed. In addition, ~~t~~The undertaking shall disclose whether the undertaking it has policies in place for the protecting of individuals that use the channels or processes mentioned in **AR 42** against retaliation.~~

~~AR 39-AR 48. If the undertaking cannot disclose the above required information because it has not implemented these does not have such processes or channels, it may disclose a timeframe in which it aims to put such processes in place by when it intends to introduce them.~~

~~Guidance on 'processes for remediating negative impacts and channels for own workforce to raise concerns' (AR 52 – AR 53)~~

~~AR 40. In fulfilling the requirements set out in AR 2142 through AR 3244 the undertaking may be guided by the content of the UN Guiding Principles on Business and Human Rights and the OECD Due Diligence Guidance for Responsible Business Conduct focused on **remediation** and **grievance mechanisms**.~~

~~AR 41. Channels for raising concerns or needs include **grievance mechanisms**, hotlines, trade unions (where people in the workforce are unionised), works councils, dialogue processes or other means through which the undertaking's **own workforce** or **workers' representatives** can raise concerns about impacts or explain needs that they would like the undertaking to address. This could include both channels provided by the undertaking directly and channels provided by the entities where their own workforce is working in addition to any other~~

~~mechanisms an undertaking may use to gain insight into the management of impacts on its own workforce, **value chain** workers, **affected communities**, consumers and **end-users**, such as compliance audits. Where the undertaking is relying solely on information about the existence of such channels provided by its **business relationships** to answer this requirement, it may state that:~~

~~AR 42. These channels could be provided by an industry-wide initiative in which the undertaking takes part of or by other third-party mechanisms such as the ones operated by the government or NGOs. The undertaking may disclose whether these are accessible to all of its **own workforce** or **workers' representatives** (or, in their absence, individuals or organisations acting on their behalf or who are otherwise in a position to be aware of negative **impacts**).~~

~~AR 43. The undertaking may disclose the processes through which it supports or requires the availability of such channels in the workplace of its **own workforce**.~~

~~AR 44. In explaining whether and how the undertaking knows that people in its **own workforce** are aware of and trust any of these channels, the undertaking may provide relevant and reliable data about the effectiveness of these channels from the perspective of the people concerned. Examples of such sources of information include surveys of people in the undertaking's workforce that have used such channels and their levels of satisfaction with the process and outcomes. To illustrate the usage level of such channels, the undertaking may disclose the number of complaints received from consumers and/or **end-users** during the reporting period.~~

~~AR 45. The undertaking may disclose how it tracks and monitors the issues that are raised and addressed and how it ensures the effectiveness of the channels, including through the involvement of **stakeholders** who are intended **users**.~~

~~AR 46. In describing the effectiveness of channels for its **own workforce** and **workers' representatives** to raise concerns, the undertaking may be guided by the following questions based on the 'effectiveness criteria for non-judicial **grievance mechanisms**' as laid out in the UN Guiding Principles on Business and Human Rights, in particular principle 31. The considerations below may be applied to individual channels or to a collective system of channels.~~

- ~~(d) Do the channels have legitimacy by providing appropriate accountability for their fair conduct and building stakeholder trust?~~
- ~~(e) Are the channels known and accessible to stakeholders?~~
- ~~(f) Do the channels have clear and known procedures with indicative timeframes?~~
- ~~(g) Do the channels ensure reasonable access for stakeholders to sources of information, advice and expertise?~~
- ~~(h) Do the channels offer transparency by providing sufficient information to complainants and, where applicable, to meet any public interest?~~
- ~~(i) Do outcomes achieved through the channels accord with internationally recognised human rights?~~
- ~~(j) Does the undertaking identify insights in the channels that support continuous learning for both improving the channels and preventing future impacts?~~
- ~~(k) Does the undertaking focus on engaging in dialogue with complainants as a means to reaching agreed solutions rather than seeking to unilaterally determine the outcome?~~

~~— The undertaking shall consider whether and how people in its own workforce that may be affected and their **workers' representatives** are able to access channels at the level of the undertaking they are employed in, or contracted to work for, in relation to each material impact. Relevant channels may include hotlines, trade~~

~~unions (where people in the workforce are unionised), works councils or other **grievance mechanisms** operated by the relevant undertaking or by a third party oms.~~

Actions on material impacts on an undertaking's own workforce, value chain workers, affected communities or consumers and end-users

~~AR 47.—When disclosing information on **actions** for material **impacts** related to either its own workforce, value chain workers, affected communities or consumers and end-users the undertaking shall describe:~~

~~(a) AR 49. actions taken, planned or underway to prevent or mitigate material negative impacts, on its own workforce and~~

~~(b) processes through which it identifies what **actions** are needed and appropriate in response to a particular actual or potential negative **impact** on its own workforce.~~

Additional guidance for actions on own workforce

~~AR 48. The undertaking may disclose whether and how it ensures that its own practices do not cause or contribute to material negative **impacts** on **own workforce**, including, where relevant, its practices in relation to procurement, sales and data use. This may include disclosing what approach is taken when tensions arise between the prevention or mitigation of material negative impacts and other business pressures. may shall mayshallmayshall~~

Guidance / Additional information for Policies related to value chain workers

~~AR 49. When describing its **policies** on **value chain workers**, the undertaking shall consider focusing on those matters that are material in relation to, as well as its general approach to:~~

~~(a) engagement with value chain workers (refer to AR 55 and AR 56) and~~

~~(b) measures to provide and/or enable **remedy** for human rights **impacts** (refer to AR 59 to AR 61).~~

Processes for engaging with value chain workers on impacts

~~AR 50.—If the undertaking engages with **value chain workers** and their representatives, when disclosing information under AR 54(a) the undertaking it shall disclose:~~

Guidance / Additional information for Targets on Climate change

~~AR 123-AR 58.~~ Regarding **GHG emission reduction targets** for Scope 1, 2, and 3, the undertaking may disclose:

- (a) GHG emission reduction **targets** in absolute value (either in tonnes of CO₂eq or as a percentage of the **emissions** of a base year) and, where relevant, in intensity value;
- (b) GHG emission reduction targets for **Scope 1, 2, and 3 GHG emissions**, either separately or combined. The undertaking shall specify, in case of combined GHG emission reduction targets, which GHG emission Scopes (1, 2 and/or 3) are covered by the target;
- (c) the current base year and baseline value of the target, and from 2030 onwards, an update of the base year for its GHG emission reduction targets after every five-year period thereafter;

Draft Revised LSME Section 3 – Policies, Actions and Targets

- (d) whether the GHG emission reduction targets are science-based and compatible with limiting global warming to 1.5°C, including information on which framework or methodology has been used to determine these targets – such as whether they are derived using a sectoral decarbonisation pathway – what the underlying climate and **policy scenarios** are and whether they have been externally assured; and
- (e) the expected **decarbonisation levers** and their overall quantitative contributions towards achieving the GHG emission reduction targets (e.g., energy or material efficiency and consumption reduction, fuel switching, use of **renewable energy**, phase out or substitution of product and process).

~~AR 124~~-AR 59. When setting climate change science-based **targets** or disclosing them, the undertaking may consider indications contained in resources like the Science Based Targets initiative (SBTi) for Small and Medium-Sized Enterprises (SMEs) by CDP, the United Nations Global Compact, the World Resources Institute, the WWF's publications issued by the WWF and BCG (2020) and Beyond Science-Based Targets: A Blueprint for Corporate Action on Climate and Nature.

~~AR 125~~-AR 60. When disclosing information related to **GHG emission reduction targets**, the undertaking may specify the share of the target related to each respective **GHG emission Scope (1, 2 or 3)**. The undertaking may specify the method used to calculate **Scope 2 GHG emissions** included in the target (i.e., either the location-based or market-based method). If the boundary of the **GHG emission reduction target** diverges from that of the **GHG emissions**, the undertaking may disclose the respective percentages of Scope 1, 2, 3 and total GHG emissions covered by the target.

~~AR 126~~-AR 61. When disclosing information on base year and baseline value:

~~(a)~~(f) the undertaking may briefly explain how it has ensured that the baseline value against which the progress towards the target is measured is representative of the activities covered and the influences exerted by external factors (e.g., temperature anomalies in a certain year influencing the amount of energy consumption and the related GHG emissions). This can be done by the normalisation of the baseline value, e.g., by using a baseline value that is derived from a three-year average if this increases the representativeness and allows for a more faithful representation;

~~(b)~~(g) the baseline value and base year shall not be changed unless significant changes in either the target or reporting boundary occur. In such a case, the undertaking may explain how the new baseline value affects the new target, its achievement and presentation of progress over time. To foster comparability, when setting new targets the undertaking may select a recent base year that does not precede the first reporting year of the new target period by more than three years. For example, with the target year set to 2030 and the target period to between 2025 and 2030, the base year shall be selected from the period between 2022 and 2025; and

~~(e)~~(h) the undertaking may disclose the progress made in meeting these targets before its current base year when presenting climate-related targets.

~~AR 127~~-AR 62. The undertaking may present information— during the target period with reference to a sector-specific **emission** pathway if available or else a cross-sector emission pathway compatible with limiting global warming to 1.5°C. For these purposes, the undertaking may calculate a 1.5°C aligned reference target value for Scope 1 and 2 (and, if applicable, a separate one for Scope 3) against which its own **GHG emission reduction targets** or interim **targets** in the respective Scopes can be compared.

Draft Revised LSME Section 3 – Policies, Actions and Targets

~~AR 128-AR 63.~~ The reference target value may be calculated by multiplying the GHG **emissions** in the base year with either a sector-specific (sectorial decarbonisation methodology) or cross-sector (contraction methodology) **emission reduction** factor. These emission reduction factors can be derived from different sources. The undertaking should ensure that the source used is based on an emission reduction pathway compatible with limiting global warming to 1.5°C.

~~AR 129.~~ The **emission reduction** factors are subject to further development. Consequently, undertakings are encouraged to only use updated publicly available information.

Source: based on Pathways to Net-zero – SBTi Technical Summary (Version 1.0, October 2021).

~~AR 130-AR 65.~~ The reference target value is dependent on the base year and baseline **emissions** of the undertaking's **GHG emission reduction target**. As a result, the reference target value for undertakings with a recent base year or from higher baseline emissions may be less challenging to achieve than it will be for undertakings that already have taken ambitious past **actions** to reduce GHG emissions. Therefore, undertakings that have in the past achieved GHG emissions reductions compatible with either a 1.5°C-aligned cross-sector or sector-specific pathway may adjust their baseline emissions accordingly to determine the reference target value. If the undertaking is adjusting the baseline emissions to determine the reference target value, it shall not consider GHG emission reductions prior to the year 2020, and it should provide appropriate evidence of its past achieved GHG emission reductions.

~~AR 131-AR 66.~~ When disclosing the information related to expected **decarbonisation levers**, the undertaking may explain:

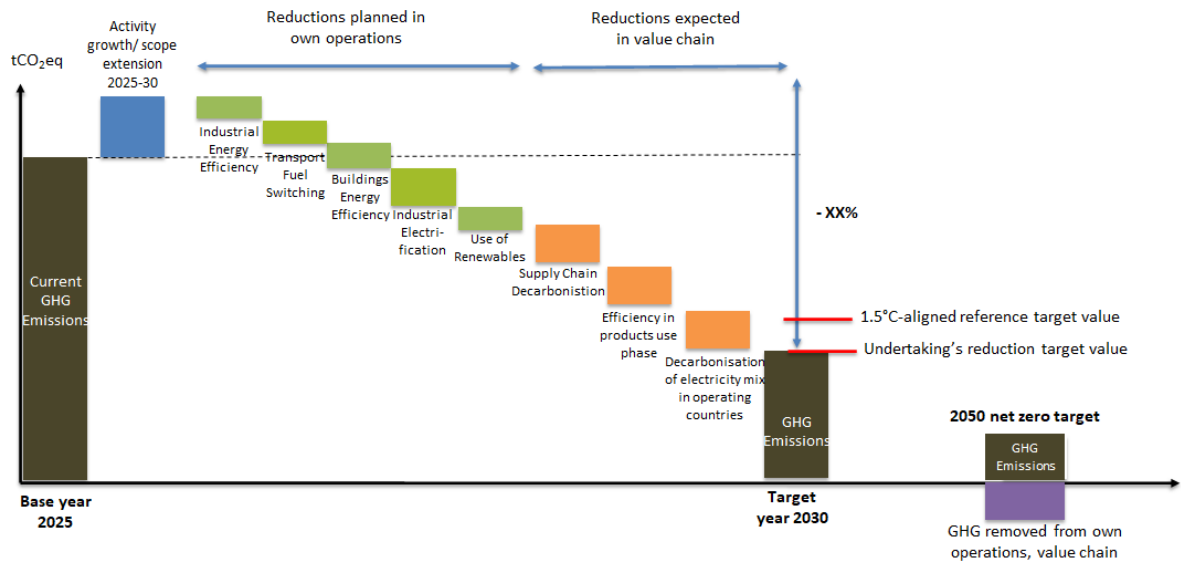

~~(a)(i)~~ by reference to its climate change mitigation actions, the decarbonisation levers and their estimated quantitative contributions to the achievement of its GHG emission reduction targets broken down by each Scope (1, 2 and 3);

~~(b)(i)~~ whether it plans to adopt new technologies and the role of these in achieving its GHG emission reduction targets; and

~~(c)(k)~~ whether and how it has considered a diverse range of climate scenarios, including at least a climate scenario compatible with limiting global warming to 1.5°C, to detect relevant environmental-, societal-, technology-, market- and policy-related developments and determine its decarbonisation levers.

~~AR 132-AR 67.~~ The undertaking may present its GHG **emission reduction targets** together with its **climate change mitigation actions** (see paragraph AR 20) in a table or graphical pathway showing developments over time. The following figure and table provide examples combining **targets** and **decarbonisation levers**:

Draft Revised LSME Section 3 – Policies, Actions and Targets

Guidance / Additional information for Targets on Pollution

AR-133-AR 68. When disclosing information on **targets** that are related to **pollution**, the undertaking may specify whether and how its targets relate to the prevention and control of air **pollutants** and the respective **specific loads; emissions** to water and the respective specific loads; pollution to **soil** and the respective specific loads; **substances of concern**; and **substances of very high concern**.

AR-134-AR 69. If the undertaking refers to **ecological thresholds** when setting **targets**, it may refer to the guidance provided by the Science-Based Targets Initiative for Nature (SBTN) in its interim guidance (Initial Guidance for Business, September 2020) or any other guidance with a scientifically acknowledged methodology that allows for the setting of science-based targets by identifying ecological thresholds and, if applicable, entity-specific allocations. Ecological thresholds can be local, national and/or global.

AR-135-AR 70. The undertaking may specify whether the **target** addresses shortcomings related to the Substantial Contribution criteria for Pollution Prevention and Control as defined in delegated acts adopted pursuant to Article 14(2) of Regulation (EU) 2020/852. Where the Do No Significant Harm (DNSH) criteria for Pollution Prevention and Control as defined in delegated acts adopted pursuant to Article 10(3), Article 11(3), Article 12(2), Article 13(2), and Article 15(2) of Regulation (EU) 2020/852 are not met, the undertaking may specify whether the target addresses shortcomings related those DNSH criteria.

Additional guidance for targets on water and marine resources

AR-136-AR 71. When disclosing information on **targets** that are related to water and **marine resources**, the undertaking may indicate whether and how its targets relate to:

- (a) the management of material **impacts** and **risks** related to **areas at water risk**, including improvement of the water quality;
- (b) the responsible management of marine resources impacts and risks, including the nature and quantity of marine resources-related commodities (such as gravels, deep-sea minerals and seafood) used by the undertaking; and
- (c) the reduction of **water consumption**, including an explanation of how those **targets** relate to areas at water risk, including areas of high water-stress.

~~AR 137~~-~~AR 72~~. If the undertaking refers to **ecological thresholds** when setting **targets**, it may refer to the guidance provided by the Science-Based Targets Initiative for Nature (SBTN) in its interim guidance (Initial Guidance for Business, September 2020). It may also refer to any other guidance with a scientifically acknowledged methodology that enables the setting of science-based targets by identifying ecological thresholds and, if applicable, organisation-specific allocations. Ecological thresholds can be local, national and/or global.

~~AR 138~~-~~AR 73~~. The undertaking may provide **targets** related to:

~~(a)~~(d) the reduction of water withdrawals and

~~(b)~~(e) the reduction of water discharges.

~~AR 139~~-~~AR 74~~. If the undertaking provides **targets** on withdrawals, it may include **water withdrawal** from polluted **soils** and aquifers as well as water withdrawn and treated for **remediation** purposes.

~~AR 140~~-~~AR 75~~. If the undertaking provides **targets** on **discharges**, it may include **water discharges** to **groundwater** such as reinjection to aquifers or water returning to a groundwater source via a soakaway or a swale.

Additional guidance for targets on biodiversity and ecosystems

~~AR 141~~-~~AR 76~~. When disclosing information on **targets** that are related to **biodiversity** and **ecosystems**, the undertaking may specify whether and how these targets are related to:

- (a) contribution to direct impact drivers on biodiversity loss;
- (b) **impacts** on the state of species (i.e., on species population size, species global extinction risk, etc.);
- (c) **impacts** on the extent and condition of **ecosystems** including through **land degradation, desertification** and **soilsealing**; and
- (d) Impacts and dependencies on ecosystem services.

~~AR 142~~-~~AR 77~~. When disclosing information on **targets** that are related to biodiversity and ecosystems, the undertaking may specify:

- (a) whether **ecological thresholds** and allocations of **impacts** to the undertaking were applied when setting **targets**;
- (b) whether the targets are informed by and/or are aligned with the Kunming-Montreal Global Biodiversity Framework, relevant aspects of the EU Biodiversity Strategy for 2030 and other **biodiversity** and **ecosystem**-related national **policies** and legislation;
- (c) the geographical scope of the targets if relevant;
- (d) whether or not the undertaking used biodiversity offsets; and
- (e) to which of the layers of the mitigation hierarchy the target can be allocated (i.e., avoidance, minimisation, restoration and rehabilitation, or compensation and offsets).

~~AR 143~~-~~AR 78~~. The **targets** related to material **impacts** may be presented in a table as shown below:

Draft Revised LSME Section 3 – Policies, Actions and Targets

Type of target according to mitigation hierarchy	Baseline value and base year	Target value and geographical scope			Connected policy or legislation if relevant
		2025	2030	Up to 2050	
Avoidance					
Minimisation					
Rehabilitation and restoration					
Compensation or offsets					

AR 79. The targets related to the aspects listed in paragraph AR 95122 of this Section may be presented in a table as shown below:

Type of target according to sustainability matter	Baseline value and base year	Target value and geographical scope			Related policy or legislation if relevant
		2025	2030	Up to 2050	

AR-144-AR 80. Measurable **targets** related to **biodiversity** and **ecosystems** may be expressed in terms of:

- ~~(a)~~(f) size and location of all habitat areas protected or restored, whether directly or indirectly controlled by the undertaking and whether the success of the restoration measure was or is approved by independent external professionals;
- ~~(b)~~(g) recreated surfaces (environments in which management initiatives are implemented so as to create a habitat on a site where it did not exist initially); or
- ~~(e)~~(h) number or percentage of projects/sites whose ecological integrity was improved (e.g., installation of fish passes, wildlife corridors, etc.).

~~Guidance / Additional information for~~ *Targets on Resource use and circular economy*

AR-145-AR 81. When disclosing information on **targets** that are related to resource use and **circular economy**, the undertaking may specify:

- (a) whether and how its **targets** relate to **resource inflows** and **resource outflows**, including **waste**, products and materials;
- (b) which layer of the **waste hierarchy** the target relates to; and
- (c) whether **ecological thresholds** and entity-specific allocations were taken into consideration when setting **targets**.

AR-146-AR 82. If the undertaking refers to **ecological thresholds** to set **targets**, it may refer to the guidance provided by the Science-Based Targets Initiative for Nature (SBTN) in its interim guidance (Initial Guidance for Business, September 2020) or any other guidance with a scientifically acknowledged methodology that allows for the setting of science-based targets by identifying ecological thresholds and, if applicable, organisation-specific allocations. Ecological thresholds can be local, national and/or global.

AR-147-AR 83. When providing information on **targets** related to resource use and **circular economy**, the undertaking may prioritise targets in absolute value.

~~Guidance / Additional information~~ *guidance for ~~t~~Targets ~~on~~related to ~~o~~Own workforce, value chain workers, affected communities and consumers and end-users*

AR-148-AR 84. When ~~the undertaking~~ disclosing information ~~on its~~ **targets** that are related to its own workforce, value chain workers, affected

~~communities or consumers and end-users it may include~~ a summarised description of ~~the~~any time-bound and outcome-oriented targets ~~it may have set related to~~for:

- (d) reducing negative impacts on ~~its own workforce~~ any one of the aforementioned groups of stakeholders,
- (e) advancing positive impacts on ~~its own workforce~~ any one of the aforementioned groups of stakeholders, and/or
- (f) managing material risks related to ~~its own workforce~~ any one of the aforementioned groups of stakeholders.

AR 149-AR 85. ~~_____~~ The undertaking may disclose the process for setting its **targets**, including whether ~~and how the undertaking~~it engaged ~~directly~~ with any one of the aforementioned stakeholder groups directly or with their legitimate representatives or credible proxies that know their situation ~~its own workforce or workers' representatives~~ in:

- (a) setting any such targets,
- (b) tracking the undertaking's performance against them, and
- (c) identifying any lessons or improvements resulting from the undertaking's performance.

~~Additional guidance for targets on value chain workers~~

~~AR 150. When disclosing information on **targets** that are related to **value chain workers**, the undertaking may disclose a summarised description of the time-bound and outcome-oriented targets it may have set related to:~~

- ~~(d) reducing negative **impacts** on value chain workers,~~
- ~~(e) advancing positive impacts on value chain workers, and/or~~
- ~~(f) managing **material risks** related to value chain workers.~~

~~AR 151. The undertaking may disclose its process for setting **targets**, including whether and how the undertaking engaged directly with workers in the value chain, their **legitimate representatives**, or with **credible proxies** that have insight into their situation when:~~

- ~~(g) setting any such targets,~~
- ~~(h) tracking the undertaking's performance against them, and~~
- ~~(i) identifying any lessons or improvements resulting from the undertaking's performance.~~

~~Guidance / Additional information for Targets on Affected communities~~

~~AR 152. When disclosing information on **targets** that are related to **affected communities**, the undertaking may disclose a summarised description of the time-bound and outcome-oriented targets it may have set related to:~~

- ~~(j) reducing negative **impacts** on affected communities,~~
- ~~(k) advancing positive impacts on affected communities, and/or~~
- ~~(l) managing **material risks** related to affected communities.~~

~~AR 153. The undertaking may disclose the process for setting the **targets**, including whether and how the undertaking engaged directly with **affected communities**, their **legitimate representatives**, or with **credible proxies** that have insight into their situation when:~~

- ~~(m) setting any such targets,~~

- ~~(n) tracking the undertaking's performance against them, and~~
- ~~(o) identifying any lessons or improvements resulting from the undertaking's performance.~~

~~Guidance / Additional information for Targets on Consumers and end-users~~

~~AR 154. When disclosing information on **targets** that are related to **consumers** and **end-users**, the undertaking may disclose a summarised description of the time-bound and outcome-oriented targets it may have set related to:~~

- ~~(p) reducing negative **impacts** on consumers and/or end-users,~~
- ~~(q) advancing positive impacts on consumers and/or end-users, and/or~~
- ~~(r) managing **material risks** related to consumers and/or end-users.~~

~~AR 155. The undertaking may disclose its process for setting the **targets**, including whether and how the undertaking engaged directly with **consumers** and/or **end-users**, their **legitimate representatives**, or with **credible proxies** that have insight into their situation when:~~

- ~~(s) setting any such targets;~~
- ~~(t) tracking the undertaking's performance against them; and~~
- ~~(u) identifying, if any, lessons or improvements resulting from the undertaking's performance.~~
