

This paper has been prepared by the EFRAG Secretariat for discussion at a public meeting of EFRAG FR TEG. The paper forms part of an early stage of the development of a potential EFRAG position. Consequently, the paper does not represent the official views of EFRAG or any individual member of the EFRAG FRB or EFRAG FR TEG. The paper is made available to enable the public to follow the discussions in the meeting. Tentative decisions are made in public and reported in the EFRAG Update. EFRAG positions, as approved by the EFRAG FRB, are published as comment letters, discussion or position papers, or in any other form considered appropriate in the circumstances.

Exposure Draft

Overview of DCL recommended by EFRAG FR TEG for approval by EFRAG FR TEG

- 5 The proposed DCL's draft responses to the questions raised in the ED are included within the draft comment letter - agenda paper 02-04.
- 6 The cover letter in the DCL highlights general messages about the amendments in ED, areas where it is suggested EFRAG support the ED's proposals, and areas where EFRAG should raise concerns and offer suggestions to enhance the ED's proposals.

Questions to the EFRAG FRB

- 7 Do you have any comments on the proposed DCL?
- 8 Do you agree with the questions to constituents in the proposed DCL?
- 9 Subject to the DCL being modified to reflect changes proposed by the EFRAG FRB, do you approve the DCL for issuance?

Next steps

- 10 Publication of the DCL until 6 January 2025 allowing a 58 - days comment period.
- 11 Additional joint EFRAG FRB and FR TEG meeting to be scheduled in January 2025 for EFRAG FR TEG to recommend and EFRAG FRB to approve the FCL.
- 12 Issuance of FCL on 20 January 2025, which is the IASB deadline.

Appendix - Project Background

- 14 Over the years, the IFRS Interpretations Committee has received numerous requests to clarify various aspects of accounting under the equity method in IAS 28 *Investments in Associates and Joint Ventures*. The IASB has considered these requests and, via an ED has proposed amendments to reduce diversity in practice in the application and to enhance the understandability of IAS 28, improving comparability, and improving information with ED disclosures.
- 15 When deciding the scope of the project, the IASB considered whether to undertake a fundamental review of the equity method or focus on application questions. The IASB decided not to undertake a fundamental review of the equity method, which:
- (a) would have required the IASB to consider whether the equity method should continue to be used and, if so, for which types of investments in other entities. The IASB noted that in developing the *Conceptual Framework for Financial Reporting (Conceptual Framework)*, it did not consider whether and how the economic entity perspective or the reporting entity concept could affect the use of the equity method.
 - (b) might have resulted in fundamental changes to the equity method. The IASB noted that the equity method is well established and fundamental changes would require significant stakeholder support.
- 16 The IASB decided instead to focus on developing answers to application questions. This approach would, in a shorter time, provide preparers with solutions to long-standing application difficulties, reduce diversity in practice and lead to more comparable and understandable information for users.
- 17 Steps taken by the IASB on this project are presented below:
- (a) At its October 2020 meeting, the IASB decided on the objective and approach of the Equity Method research project and moved the project from the research pipeline to its research programme.
 - (b) At its October 2022 meeting, the IASB reviewed the progress of its Equity Method research project and decided to retain the project's objective and approach.
 - (c) At its April 2023 meeting, the IASB decided to move the Equity Method research project to its standard-setting work plan.
 - (d) At its November 2023 meeting, the IASB concluded its technical discussions and made tentative decisions.
 - (e) At its February 2024 meeting, the IASB clarified some matters arising from its tentative decisions and proposed amendments to the forthcoming IFRS Accounting Standard *Subsidiaries without Public Accountability: Disclosures*.
 - (f) At its March 2024 meeting, the IASB discussed the transitional requirements and due process steps for the prospective exposure draft proposing amendments to IAS 28.
 - (g) In its June 2024 meeting, the IASB discussed the sweep issues identified while drafting the ED.
- 18 The ED proposals are related to:
- Change of ownership
- (a) obtaining significant influence or joint control;
 - (b) purchasing an additional interest while retaining significant influence;

Equity Method

- (c) partial disposal of ownership while retaining significant influence;
- (d) other changes in ownership (e.g., via associate issuance or redemption of its shares);
- (e) deferred tax effects
- (f) contingent consideration

Other proposals

- (g) recognition of losses: unrecognised losses and purchase of an additional interest; and share of profit and loss and OCI when the associate's losses exceed carrying value;
 - (h) transactions with associates and joint ventures;
 - (i) impairment indicators;
 - (j) improved disclosure requirements for associates;
 - (k) separate financial statements;
 - (l) transitional requirements; and
 - (m) interaction with other IFRS Standards including updated amendments to IFRS 19.
- 19 Due to the associated complexity, the IASB did not develop proposals for change of ownership arising from equity-settled share-based payments and share warrants.
